

## We at North Hertfordshire District Council understand the importance of diverting waste away from landfill, and commercial waste can make a significant contribution to this.

New commercial waste legislation was introduced in October last year. The legislation dictates that commercial waste producers should pre-treat (recycle) part of their waste.

If you are a trade waste customer of North Hertfordshire District Council you are currently exempt from the legislation due to our Local Authority status although this is likely to change in the near future. Companies which use a private contractor are required to pre-treat their waste.

Although exempt from the legislation for the moment, North Hertfordshire District Council want to reduce the amount of commercial waste going to landfill, so we are looking to introduce the comprehensive commercial recycling service for businesses. The new service will enable commercial waste producers to recycle their glass, paper and cardboard. We are aiming to supply an all in one commercial refuse and recycling service to our valued customers.

**To register your interest in our new recycling service and / or competitively priced refuse service, please give us a call on 01462 474502 where one of our trade waste officers will give you more information.**

If your company wants to boost its green credentials and reduce the impact of your waste on the environment contact us now!

**“We’re making it  
easier for your  
business to recycle”**
