FM 010

8494

Object

Respondent: Mr Robert Howard**Summary:**

Making Little Wymondley is classed a Category A one of five villages where a greater amount of development has been allocated, is not sustainable, there is no justification for the allocation of 331 houses in Little Wymondley (WY1). The proposal/modification is unsustainable and there are no special circumstances for the development.

Attachments: None

8550

Comment

Respondent: Transport for London (TfL)**Summary:**

Thank you for consulting Transport for London (TfL). I can confirm that we have no comments to make on the further proposed main modifications.

Attachments: None

8595

Object

Respondent: Steven Worley**Summary:**

See full representation

Attachments: None

8597

Object

Respondent: Mr Mike Banyard**Summary:**

As a local resident (central Letchworth) I am writing to object to the local housing plan.

The ONS estimates that North Herts requires a maximum of 6,000 new homes, so a plan that will deliver 3 times that amount, predominantly built on Green Belt land that acts as the lungs for the country, is both environmentally and economically damaging

I urge you to reconsider and scale back the plans to that which is actually needed.

Attachments: None

8600

Object

Respondent: Mr Gregor Laing**Summary:**

I am emailing to register my strong opposition to the current NHDC Local Plan. The figure of 13,000 new homes in the district is well over twice the requirement estimated by the ONS. That 85% of these are to be located on green belt is even more concerning. As it stands, the Plan appears little more than a charter for greedy landowners and opportunistic developers, at the end of which there will still be insufficient genuinely affordable homes, increased congestion on the District's roads and permanent loss of attractive countryside.

Attachments: None

8604

Object

Respondent: Mr and Mrs Rhys and Nina Lancaster**Petition:** 2 petitioners**Summary:**

See full representation attached - Barkway

Attachments: None

8605

Object

Respondent: Mr Alan Willcocks**Summary:**

I seriously object to the development plans of NHDC to build on green belt land in and around Hitchin and other surrounding villages.

There are sufficient unfulfilled planning consents available to meet Office of National Statistics development numbers of up to 6000, and adequate failed commercial sites to meet this need by redevelopment.

Attachments: None

8606

Object

Respondent: Mr Stan Kitchiner**Summary:**

I wish to raise my concerns of the North Herts District Council (NHDC) Local Plan.

In particular I am very disappointed that the number of new houses proposed is growing in a plan that has been changed many times and therefore indicates that the planners are unsure of what they are trying to achieve. The current number of new houses, 18,500, is way above the number that the Office of National Statistics confirm as being needed namely 3,500 - 6,000.

On top of this most of the developments are planned to be built on Green Belt land which is supposed to be protected. We are currently experiencing a pandemic that has led people to get back to nature and the number of walks in the beautiful countryside in North Herts has increased significantly. Local people have come to appreciate the local countryside more and need these green spaces for their physical and mental health. There are many 'brown field' sites available that should first be used for building houses particular on the west side of Stevenage.

In addition, what thought has been given of the impact approx 50 - 60,000 people living in those homes will have on the local environment in terms of water supply, communications, additional roads, schools, bus services, health services etc.

Lets be sensible and manage expectations, do we really need to build 3 times the number of houses confirmed and destroy not only our green belt land but the wildlife and pleasure that so many people enjoy in our countryside.

8646

Object

Respondent: Mrs Jennifer Warren

Summary:

See attached representation for Barkway

Attachments: None

8647

Object

Respondent: Mr and Mrs Alistair & Jannetta Prickett

Petition: 2 petitioners

Summary:

We strongly object to the North Herts DC local plans proposed development of 2100 homes East of Luton, required solely to meet an unmet need from Luton of 9300 homes calculated in 2017 as argued in ED224, for the following reasons:-

1. Valuable Green Belt land, there are no adequate exceptional circumstances
2. Luton's house building is much higher than 2017 forecast, updated assessed needs are lower, unmet needs reduced to around 2000
3. Luton's unmet needs have already been more than covered by Central Beds as the designated 'best fit' neighbour, with many already in build
4. Luton's failure to require adequate family housing from developers

Furthermore, there is no evidence at all that NHDC officials and Councillors have carried out adequate, or even any, due diligence on Luton's housing figures.

FM 016

8741

Comment

Respondent: Transition Town Letchworth**Summary:**

If this modification is about showing where the age profile of North Herts population diverges from Hertfordshire it fails to do this by not identifying the age group where the district has above average population representation, it only identifies below average representation in the 15-29 age grouping.

Attachments: None

Respondent: Green Party**Summary:**

This change is based on ONS 2016, which is now 5 years out of date and not the latest forecast available, which is ONS 2018 - <https://www.ons.gov.uk/peoplepopulationandcommunity/populationandmigration/populationprojections/bulletins/subnationalpopulationprojectionsforengland/2018based>

ONS 2018 states that the forecast population growth is 3330 between 2018 and 2028. This is a third of the forecast quoted - a substantial change. This revision of lower population growth is substantial and has a material impact on many other concerns, so must be taken into consideration.

8742

Comment

Respondent: Transition Town Letchworth**Summary:**

This paragraph has been adjusted to give the population prediction for next ten years based on now outdated 2016 predictions. However, the plan, and housing numbers are for 20 years so it would be helpful to also identify the total population growth over the 20 years period by indicating the growth that has occurred up to 2021. Given that population growth predictions have been reviewed downwards in both ONS 2016 and 2018 population projections is it accurate to say there is 'considerable' pressure on housing, 'moderate' might be a better description.

8718

Object

Respondent: Mr David Tait**Summary:**

Housing need and affordability - ref NNPF para 20

Affordability in the North Herts area is significantly worse than the national average of 7.5 times salary

Housing need is very much affected by affordability. With house pricing at 13.3 x average salary, the need adjustment calculations produce an Adjustment factor of 1.58 times the basic housing need figures

This uplift is not adequately recorded in the NHDC housing need total figures either

FM 028

8518

Object

Respondent: Green Party**Summary:**

FM017 indicated a population increase of 3330 people, this equates to 1400 households (assuming the national average of 2.4 and rounding generously up).

FM 027 indicates a household shortage of 2100.

That is a maximum requirement of 3500 homes over a ten year period. Providing 11500 homes would mean an excess of 8000 homes.

It appears that the objectively assessed need (OAN) is not as objective as this document despite its name.

Considering the considerable impact an over provision of 8000 homes would have on the local area, services and the environment, I request that the OAN be challenged.

Attachments: None

8746

Object

Respondent: Transition Town Letchworth**Summary:**

The OAN of 11,500 was subject to considerable challenge during the hearing sessions. 2018 ONS housing projections suggest an OAN of at most 8,800. With the heavy reliance on green belt land that underlies this plan, over-provision of housing has a huge environmental cost and TTL would like to see North Herts make a case for a lower OAN based on the need to protect the green belt and in respect of the ONS 2018 population projections.

FM 029

8499

Object

Respondent: Mr Justin Richards**Summary:**

Hertfordshire should not allow the urban sprawl of Luton to encroach upon the villages and towns between Luton and Hitchin. This will result in the loss of the greenbelt, loss of bio diversity and will make the area far too urban. Other solutions must be sought rather than just tacking on additional housing to already overcrowded conurbations.

Once again, there is no infrastructure expansion to support any of this housing and this will lead to higher air pollution and traffic congestion.

Attachments: None

8511

Object

Respondent: Mr David Dorman**Summary:**

The 8,500 quoted as the housing capacity of Luton through to 2031 is now more like 14,700 using up to date numbers. Luton's revised OAN of July 2020 shows a lower requirement of 14,700. Luton's unmet need through to 2031 is only 2,000 and not the 9,300 in the Luton Local Plan. Central Bedfordshire Council has allocated 20 sites with a capacity of 8,850 dwellings to meet Luton's unmet needs. Luton's failure to hold its required Review by mid-2021 under its Policy LLP40 would reveal this. NHDC does not need to build houses on Green Belt land at Cockernhoe.

FM 035

8748

Comment

Respondent: Transition Town Letchworth**Summary:**

The phrase "have regard to this strategy" appears to refer to LTP3 as adopted in 2011. Because the Hertfordshire Transport vision to 2050 was not produced by 2016, but is now close to publication, it would in our view be sound to adopt its vision and strategy for the Local Plan 2011-2031.

Should the deleted wording of this paragraph be replaced by a brief explanation of how LTP4 and the various local plans across the county, including this local plan will be reconciled to provide a consistent solution for transport, housing and employment?

8838

Comment

Respondent: Dr John Webb

Summary:

Query: Would it be possible to use a planning condition to disincentivise speculative land banking?

Suggested wording:

"To ensure that housing is delivered in a timely manner, each Strategic Masterplan will require that every planning permission pertaining to it must include a condition that the development be built out on a prescribed schedule. (e.g. 3 years, then 2 years extension if the reason for delay is outside of the developer's control) In the absence of completion, the remainder of the planning permission would automatically expire."

MM 017 / FM 050

8500

Object

Respondent: Mr Justin Richards**Summary:**

The whole growth of retail capacity needs to be revised in a post COVID world. As the world has moved on-line this projection is out of date and is based upon an old paradigm - we don't need more shops or retail space.

Attachments: None

8501

Object

Respondent: Mr Justin Richards**Summary:**

The existing policy highlights the overlapping retail markets of Hitchin, Letchworth and Baldock.

It is clear that there is too much overlap and efforts should be made to provide more housing in these centres.

8751

Object

Respondent: Transition Town Letchworth

Summary:

At the hearings concerns were raised that the modelling and data which informed the retail space allocations in the draft local plan were considered out-of-date. TTL's expectation is that land allocated for retail could be reassigned for housing, reducing the need to build on green belt land. It is not clear why NHDC did not take the opportunity offered by the hearing to suggest a reduced allocation of land for retail.

Now we are emerging from Covid-19, it is becoming clear which retail modes of operation have changed. It seems to us unsound to exclude that reality from the Plan.

MM 019 / FM 052

8753

Object

Respondent: Transition Town Letchworth**Summary:**

Twelve months after adoption of this plan seems late to review the outdated Town Centre strategies. If a review could take place prior to adoption of this plan, it seems likely that a number of brown field sites could be reallocated to housing, allowing green belt land to be removed from the plan.

The proposed change causes a contradiction between "Town centre strategies have been produced" and "Work on these town centre strategies will commence...". In view of drastic changes noted above for FM50, could this be clarified by proposing that revised strategies be produced now for this Local Plan?

FM 053

8755

Comment

Respondent: Transition Town Letchworth**Summary:**

The proposed wording seems muddled, with "related" (to "shops) and "pubs or drinking establishments" acting as constraints upon the permissible "retail and service uses".

In practice, the primary frontages already have lots of eating and drinking establishments so the value of identifying primary and secondary frontages is unclear. 'Shops' are locating in secondary frontage areas where the rents are lower.

MM 020 / FM 054

8514

Object

Respondent: Mr David Dorman**Summary:**

The development 'East of Luton' (EOL) is not justified because the true unmet housing need from Luton is now no more than 2,000 through to 2031, with Central Bedfordshire Council having allocated 20 sites with the capacity for 8,850 dwellings to more than cover this reduced shortfall. With no need for NHDC to build houses at EOL solely to meet Luton's unmet needs, it follows there is also no need for an additional retail centre. In any event there is already a well-established retail centre less than half a mile away at Wigmore Shopping Centre in Luton.

MM 035 / FM 057

8502

Object

Respondent: Mr Justin Richards**Summary:**

(1) We should not be extending the Luton conurbation into Hertfordshire

(2) Once again, there is no reference to infrastructure expansion in these plans. Air pollution is above legal limits yet you plan to add more housing. The local infrastructure - roads, rail, water, sewage is all at capacity. Roads and rail are already saturated - yet there are no plans and indeed, no physical way, to provide additional capacity. This is issue must not be ignored and your plans must be re-evaluated with this in mind.

Attachments: None

8513

Object

Respondent: Mr David Dorman**Summary:**

Delete point (a) ii as the 100 houses stated to be built within the Luton HMA are not required. These houses are part of the 2,100 dwellings earmarked for this Green Belt land solely to meet unmet needs from Luton and which are not required.

Delete point (b) entirely - these houses are not required as Luton's much smaller unmet needs will be met by Central Bedfordshire Council.

Delete point (c) - final bullet point referencing EL1, EL2 and EL3 for 2,100 homes - not needed.

8593

Object

Respondent: Mr Rob Snow**Summary:**

This is a quick email to register my utter objection to the idea of building thousands of houses on green belt land in North Hertfordshire. As a life long resident of this part of the country, it chills me to think the beautiful countryside around us will be lost forever for future generations.

Attachments: None

8596

Object

Respondent: Ms Allison Phelps**Summary:**

I am wondering why the local plan is yet again quoting over inflated numbers of houses for this region. They clearly do not align with the estimates of the Office for National statistics. This means that you plan on destroying areas of the green belt which will be to the detriment of the local residents but the houses must be for people other than the local residents.

Please can you reconsider these disastrous plans and think of your local residents in any future plans.

Comment

Respondent: Victoria Jackson**Summary:**

It is very difficult to go through all these documents, and this comes immediately after local elections.

'Green Belt' clearly means NOTHING when phrases like 'comprehensive review of the Green Belt ... Land has been removed from the Green Belt to enable strategic development ... and the Green Belt releases necessary to meet housing needs'.

Attachments: None

8813

Support

Respondent: Royston Town Council**Summary:**

Royston Town Council is pleased to see revised figures showing reduced housing numbers and that many homes are already accounted for in existing developments. Royston has sustained more than its fair share of development.

Attachments: None

8837

Object

Respondent: Pelham Structures Ltd**Summary:**

The policy only provides for 56 self build plots when there are currently 317 people on the councils self build register. The council claim to have granted 100 plots to date meaning that the policy fails to meet the requirements of the self build act to give enough suitable development permissions to meet the identified demand.

8883

Object

Respondent: Mr and Mrs David and Dawn Waterhouse**Petition:** 2 petitioners**Summary:**

I fully understand the need for long term planning to cover housing needs, however, since the Local Plan was launch, so much has changed in terms of population and its expected growth.

From my understanding the ONS have in the past few years revised/advised their prediction for a much smaller growth in population than first thought. The Local Plan was devised around estimates that are perhaps 10 years or older. Added to the estimated reduction in population are two (2) huge factors being 'Brexit' and the 'COVID Pandemic'.

Both these factors have had a dramatic effect on population, especially with large sections of Europeans returning to their natural home lands. COVID has meant populations are working in different ways and has had an effect on traditional commuter areas. Added to this the Green Belt is sacred ground and once lost cannot be regained. The past year, or so, has demonstrated the need for quality green space to assist in peoples well-being. Not reducing these areas.

In and around most/if not all towns, there are multiple 'brown sites' that could be developed. Promoting more but smaller developments in the heart of our towns. Which, economically, need all the help than can get, with persons choosing not to use town centres for shopping/entertainment.

Central and Local Government are promoting an eco policy. That surely doesn't include the permanent destruction of Green Belt sites that are not only used by humans but are also home to thousands of plants, animals, birds and insects that form part of this delicate landscape.

So I respectfully request we hit the 'stop' button and re think the local plan to take into account the expected reduction in population numbers - and thus save the Green Belt.

Comment

Respondent: Knebworth Estates**Summary:**

SP9 a. In a planning environment where a Local Plan can be 10 years delayed, a 'Strategic Masterplan' that is not permitted to look more than 10 years into the future is a misnomer. It cannot be 'Strategic'. Placemaking needs to look towards a new century, not decade.

SP9 b. ii. This reinforcement of certain elements of Hertfordshire's LTP4 creates a misbalance with that policy's requirement that "The needs of the motor vehicle are not ignored" (p.45) and "The policy is not anti-car and car use is recognised as being an essential part of the county's future transport system." (p.44)

MM 075 / FM 008

8799

Object

Respondent: Ms Karen Bartha**Summary:**

I would like to submit my objections to the proposed development in Great Ashby in Stevenage, commonly known as GA2.

Why does NHDC feel the need to destroy more of our Green Belt land for a high density development of what is likely to be overpriced, poorly constructed boxes, with limited car parking spaces for the amount of population and most likely very limited green space for children to play in.

The Government recently committed to no more Green Belt land being built on, but Brownfield sites are the way forward. In these times of a fragile eco system we should be striving to save and preserve our natural habitats and wildlife, not concreting over them.

The infrastructure in Stevenage is not sufficient to support and sustain any new major housing developments. I understand that this development would come under NHDC jurisdiction, but the infrastructure that will be utilised will mainly come from SBC, and that is struggling now with dental and doctors surgeries not taking on new patients - there was supposed to be a doctors surgery built in Great Ashby, but that never came, and that land was given over to yet more housing. There is a lack of leisure and shopping facilities in the town, despite the regeneration of Stevenage town centre. The emergency services cannot cope with the number of people in the area now, with the only A&E hospital servicing the surrounding area being at the Lister, so how could they be expected to cope with the 900 or so proposed dwellings.

The roads will not be able to cope with all the additional vehicles, they are already in a state of disrepair, and in some parts are just too narrow for the amount of traffic that will come. Schools will be a major pinch point too. New developments never incorporate senior schools, only primary which I have never understood that line of thinking. The sewage systems will be put under great strain, as will the power to all these new dwellings, where will it all go and come from?

All too often profit of developers is put first. They will promise the moon to the local authority, but gradually as the development progresses, give nothing but excuses as to why the number of social and affordable housing has to fall well below what is required and needed so that their profit margins stay at their highest level. Developers should be forced to build sustainable properties with solar panelling, and any other form of eco friendly building methods, rather than the quickest, cheapest route.

It is time the local authorities joined the real world, and took a long hard look at the real need here which is the environment. We are destroying it at an alarming rate, and a new development such as this will only decimate more than is necessary, and if we continue in this way there will be no planet left to build on.

I urge you to reconsider the application for this new development in GA2 and decline the application to build it. I am not an eco warrior, just a very worried individual, who can see where we are heading if we don't stop destroying our countryside. There is already an issue with too much habitat being taken away from the wildlife, and only now are shifts in the eco systems being noticed, and they are not good shifts, and will have long lasting detrimental effects on all of us. The council would be better to buy the land from the developers and turn it over to a country wildlife park. Your council tax payers would thank you very loudly for doing something as innovative as that. And you should also ensure that any new developments are not big sprawling masses of houses, but smaller lower density building, something that has imagination built on brownfield sites instead.

There is a school of thought that if every village allowed 10 or 20 houses to be built in or around it, every town allowed 100 and every city 1000, there would be no need to encroach on so much of our green space, as space for such building could be found easily. Not as profitable as building en-mass, but certainly better for the environment, and if its homes that are needed, what better way to do it, and that way people would integrate into the local communities better and there would be a lot less drain on the resources and infrastructure.

MM 083 / FM 009

8512

Object

Respondent: Mr David Dorman**Summary:**

Policy SP19 - Sites EL1, EL2 and EL3 - Sites East of Luton should be removed from this Local Plan as there is no unmet housing need from within Luton that will require any intervention from NHDC under the Duty to Co-operate. This is because the true and up to date unmet housing need from Luton is only 2,000 and Central Bedfordshire Council has allocated 20 sites with a capacity of 8,850 dwellings which more than meets this shortfall.

It goes without saying that references in this MM to Strategic Masterplanning of the SP19 site is also not required.

8733

Comment

Respondent: Preston Parish Council**Summary:**

An up to date assessment of houses built in Luton since 2017 could substantially reduce the number to be provided by NHDC and Preston Parish Council is of the view that this should be undertaken before the NHDC Local Plan is finally made so that valuable Green Belt land in North Hertfordshire can be retained and protected.

MM 213 / FM 108

8840

Object

Respondent: Mrs Hazel Izod**Summary:**

NHDC have made it very clear that BK3 should be deleted and Barkway reinstated as a Category A Village. A 140 dwelling site on the edge of a village without full first school provision is unsustainable. HCC made it clear that the reserve school site is not needed in the Plan period. Based on the evidence submitted, retention of BK3 therefore renders the Plan unsound as it has not been positively prepared and is unjustified - contrary to Para 35 of the NPPF. Deletion of BK3 will not underline the spatial strategy, 5 year supply, or have any wider implications.

MM 216 / FM 112

8839

Object

Respondent: Mrs Hazel Izod**Summary:**

NHDC have made it very clear that BK3 should be deleted and Barkway reinstated as a Category A Village. A 140 dwelling site on the edge of a village without full first school provision is unsustainable. HCC made it clear that the reserve school site is not needed in the Plan period. Based on the evidence submitted, retention of BK3 therefore renders the Plan unsound as it has not been positively prepared and is unjustified - contrary to Para 35 of the NPPF. Deletion of BK3 will not underline the spatial strategy, 5 year supply, or have any wider implications.

Attachments: None

8903

Object

Respondent: Reverend Sonia Falaschi-Ray**Summary:**

See attached representation

Attachments: None

8906

Object

Respondent: Mr Peter Baker**Summary:**

This is a sop towards sustainability.

* 140 houses means 280+ cars as there are no other means of transport

* cars will be used by parents taking children to school - in Barley and Barkway. There is daily traffic chaos outside both schools at the moment.

* Walking to Barley is almost impossible because of a lack of footpaths. Of course, parents could invest in cross-county buggies.

* Has this been sustainable transport been costed? In perpetuity, or just until the next round of cuts, or until S106 money runs out?

8491

Object

Respondent: Mr Justin Richards**Summary:**

How is the Council addressing traffic congestion and air pollution? 971 additional homes will push Hitchin even further above legal limits for air pollution. The location of this site will saturate the road infrastructure, which is already under severe strain.

Attachments: None

8910

Object

Respondent: Mr Des Stephens

Summary:

Inadequate housing needs assessment, sustainability and transport congestion, pollution.

Attachments: None

8923

Object

Respondent: Ms Lynn Shoebottom

Summary:

The housing projections are now out of date. The house numbers for Hitchin should be decreased in line with current trends and economics, not increased, so the need to be build on new Green Belt sites should be reduced. The Strategic Housing Site of 700 houses plus all the current, proposed and potential urban developments should remove the need for small Green Belt development sites.

Object

Respondent: Mr Frank Gollogly**Summary:**

I would like to request your view and plans with regards to Ickleford being noted as an area for growth in the proposed 2031 plan. With the prospect of approximately 200 houses being built I would like to know what the infrastructure arrangements will be for road capacities, schools, water supplies, sewer drainage, public footpaths, green belt areas and air and noise pollution.

In essence I agree with some development but not with this amount of housing. However I will of course consider your response and reasoning etc.

Attachments: None

8894

Object

Respondent: Ickleford Parish Council**Summary:**

Ickleford Parish Council is very proactive in its protection of the Green Belt in Ickleford and continues to STRONGLY OBJECT in likely abuses of areas in the village for proposed development.

The Local Plan originally proposed development of Green Belt at three sites; we do not believe that the overall proposals for building on Green Belt in Ickleford are "limited" or "infilling", nor has NHDC provided a compelling case to suggest these are exceptional circumstances.

The letter of objection submitted on 11th July 2019 continues to be pertinent. Residents' objections carry our strongest support in addition to our own comments.

FM 164

8842

Object

Respondent: Mr K R Anderson

Summary:

As a resident of Chequers Lane, Preston, I understand the need for new development within the village, however, the large scale of development proposed for the land adjacent to Castlefield appears inappropriate in the extreme and will have an adverse impact on the character of the village and the lives of its resident There are numerous points to be made, however, I will touch upon just a few issues; Firstly, the size of the development and the number of dwellings proposed, along with squeezing in car parking, gardens, green spaces, storage for upwards of forty-six refuse bins, with the option of a further twenty-three brown bins, all taking into consideration, 'adequate separation between existing and proposed properties.' As a resident of Chequers Lane, with a property backing on to the proposed site, there are already on-going issues with water supply/pressure to homes along Chequers Lane, which have yet to be resolved, alongside problems regarding sewage and drainage. We do not see how an additional twenty-three dwellings will improve the situation. Another worrying area of concern addresses the huge increase of traffic, not only in Chequers Lane, but also to and from the village itself which is accessed by country lanes which, on the whole, are narrow, poorly maintained with few or no passing places. In theory, if the new development is passed, as it stands, this would mean an increase of up to one hundred additional car journeys each day in to and out of the village, all accessed through Chequers Lane. This does not take in to account additional delivery vans and other service vehicles coming in to the village. This will have a huge negative effect on the village and greatly endanger pedestrians and other road users. Other issues to raise include; the lack of provision within the village for young families, teenagers and the elderly; poor public transport; lack of amenities; increase in noise and light pollution; impact on local environment, flora and fauna. Preston village is a 'tranquil, rural community'. It is highly questionable as to how a new, modern development of twenty-three homes, crammed in to a pocket of green space alongside Castlefield, will enhance the character and environment of the parish.

Summary:

Objection to development proposed on site PR1 - See full representation attached

Attachments: Representation - https://documentportal.north-herts.gov.uk/GetDocList/Default.aspx?doc_class_code=JD&case_number=6185&doctype=PUBfpmlp

8877

Object

Respondent: Ms Jackie Adams**Summary:**

1. Looking at the proposed plans of the housing, it seems extremely cramped to fit into such a small field. 23 houses and 59 car parking spaces seems excessive.
2. When we moved in, we were told that the Castlefield Road isn't capable of withholding large vehicles/large volumes of cars. You can already see pot holes in the road constantly appearing. Also, it is a very small and narrow Road so can see this having a massive impact on current families living on Castlefield whilst having building work and the constant ongoing of cars from the new development.
3. Drainage and Sewerage. When we moved in, we were also told that the sewerage is not strong enough to maintain so many houses. There are constantly affinity water engineers fixing burst pipes and leaks on the Road.
4. Castlefield is a road where a lot of children live. If building does take place could the van restrict their timing they arrive/leave to avoid key times children are around such as school opening and closing times, as we are concerned about the safety of the Children.
- 5 There will be a negative impact to wildlife as this field is often visited by deer and other animal, also the cutting back of hedges and tree will affect them.
6. There are some houses that have been built in Preston which have been on the market for along time and still haven't sold.
6. No consideration seems to have been given to the current residents of Castlefield at all and the amount of disruption and safety concerns there will be for them. This will have a massive impact on our families.

Attachments: None

8891

Object

Respondent: Mr Robert Challans**Summary:**

- I strongly object the the density of housing proposed to be built on Castlefield Preston.
This is in relation to the "Further Main Modifications of the Local Plan - 2021.
There are too many houses proposed and these should be reduced to mitigate the issues with traffic, drainage, noise, wild life disruption, access, etc.

Respondent: Mrs Ita C Leaver**Summary:**

Re: Revised Schedule of Further Proposed Main Modifications Consultation - May 2021

With regard to site PR1 at Preston, I wish to object to the number of houses proposed for building on this site. (Refs. FM 163 and 164 on page 60).

The proposed number of houses is 21 which was prior to discovering there is a serious drainage/sewage problem in the southern area of the site.

A revised survey of the site should be undertaken and the number of houses should be reduced accordingly.

All new housing should be in-keeping with the rest of the village, be affordable and most importantly should have very adequate private gardens.

I trust you will take this into account with revised modifications.

8765

Comment

Respondent: Transition Town Letchworth**Summary:**

TTL are glad to see that a comprehensive review is planned which will be completed by 2025 at the latest. Given that this could lead to a comprehensive update on the way forward it is really important that the existing plan does not constrain that prospect by seeking to allocate any land for the period beyond 2031, particularly green belt land.

Examination Documents, ED175

8612

Object

Respondent: Mrs Roz Danter**Summary:**

As a long time Barkway resident I am appalled that BK3 has not been removed from the Schedule of Further Main Modifications despite a Planning Officer at NHDC advising the Inspector that it should be. We live in this village because it is small and peaceful 'community'. There has already been new developments on discreet plots in and around the village and that should be sufficient. We do not want to double in size.

Can I ask WHY the Inspector decided not to exclude BK3? There doesn't seem to be a published explanation. Can I also ask how the increased traffic through the village will benefit the foundations of listed buildings? And presumably the new development will have street lights, something the village has refused to adopt as it spoils the night sky. This is a country village, we do not want to become another Royston.

Attachments: None

8613

Object

Respondent: Mr Richard Childs**Summary:**

We have not had a fair or proportionate opportunity to put our case against the inclusion of site BK3. We support NHDC's request to remove site BK3 from their Local Plan.

I suspect you will receive many emails on this issue.

The process has not been transparent from the beginning. How can it be right for the inspector to include BK3 when NHDC now says that it should be taken out of the proposed plan?

The inspector seems deaf to common sense and reasoning.

I attach the list of reasons why BK3 should not be included in the plan. The site is more or less outside Barkway and should never have been selected in the first place.

Please can you ensure that BK3 is taken out of the plan?

8675**Object****Respondent:** Mr Adrian Seville**Summary:**

My objection is that due and transparent process has not been followed.

My understanding is that NHDC submitted a request to the Inspector late in 2020 that Barkway should no longer be designated a 'village for growth' and that accordingly BK3 should be omitted from the planned development.

Evidently, the Inspector has not heeded this request - but no reasons have been disclosed for the decision.

In my opinion, this is a fatal flaw in the process, which would - if taken to Judicial Review - require the matter to be revisited by the Inspector.

You will be aware that there are powerful reasons for the removal of Barkway's designation as a 'village for growth', such that if they are to be overruled a proper and transparent procedure must be followed.

The reasoning of the Inspector, once disclosed, would of course itself be subject to review.

Attachments: None

8754

Object

Respondent: Ms Cheryl Lower**Summary:**

I would like to strongly object the proposed housing development 'Further Modifications' BK3 in Barkway.

The main issue I would like to highlight is the transparency of the process.

There has been no public correspondence between the inspector and NHDC on the schedule of 'Further Modifications'. There are no reasons explained or provided to the public on why the inspector has not accepted NHDC's request to remove BK3 from the local plan.

The other issue I would like to raise is about the figures for housing allocations. There appears to be no justification for the total allocated, completed and permitted and inconsistent totals. They appear to have been all allocated to Barkway and not split between surrounding villages.

Lastly, on a personal note I feel that 140+ new homes will destroy Barkway Village. I experience the current traffic situation first hand everyday and the village infrastructure would not cope with any further increase of journeys. There are near misses most mornings from the amount of traffic and high speed. The new housing would directly effect our everyday enjoyment of living in the countryside. There would be an increase in noise pollution and the village community feel will be lost.

Attachments: None

8805

Object

Respondent: Mrs V Blake**Summary:**

Further to the recent notification concerning proposed building in Batkway, I must voice my considerable concern at the plans outlined.

My main worry is the increased amount of traffic which would result from such an amount of housing. The road through Barkway is already a nightmare to use, not only due to local cars but also huge lorries/vans delivering goods to village homes. Such a large number of homes will, obviously, bring not only one extra car per home to add to current volumes, but most new build houses have at least two each!

The resulting jams/accidents will be enormous and I would urge the Council to take traffic conditions into serious account.

8939

Object

Respondent: Ms Jean Pooley**Petition:** 2 petitioners**Summary:**

We support the recent decision by NHDC to request the Inspector to remove BK3 from the local plan. We cannot understand why this request was not followed, as is now shown in the Schedule of Further Main Modifications nor why reasons were not given by the inspector, or not published. Neither is there any published correspondence between the Inspector and NHDC concerning this latest publication. The figure suggested for the number of houses has no backup information, giving evidence as to why this number is suitable; nor is there any suggestion as to the type and variation built. We are supporting the above mentioned decision by the NHDC to remove the BK3 site from the plan. Its inclusion would not be evidence based enough to be practical or viable.

8551

Object

Respondent: Mr David, Deborah, Lauren Fothergill**Petition:** 3 petitioners**Summary:**

All three residents in our house object to the North Herts DC Local Plan's proposed development of 2,100 homes EOL required solely to meet an unmet need from Luton of 9,300 homes calculated back in 2017 as argued in ED224, for the following reasons:

- Valuable Green Belt land: no adequate exceptional circumstances
- Luton's house building is much higher than 2017 forecast, updated assessed needs are lower, unmet needs reduced to around 2,000
- Luton's unmet needs have already been more than covered by Central Beds as the designated 'best fit' neighbour, with many already in build
- Luton's failure to require adequate family housing from developers.

Respondent: Ms Ellie Cornick**Summary:**

I wish to lodge my objection to the North Herts DC Local Plan's proposed development of 2,100 homes EOL required solely to meet an unmet need from Luton of 9,300 homes, calculated in 2017 as argued in ED224, for the following reasons:

- Valuable green belt land; no adequate exceptional circumstances
- Luton's house building is much higher than forecast in 2017, updated assessment needs are lower and unmet needs have reduced to around 2,000
- Luton's unmet needs have already been more than covered by Central Bedfordshire as the designated "best fit" neighbour, with many houses already in build
- Luton's failure to require adequate family housing from developers.

Respondent: Ms Karen Jay**Summary:**

I wish to object to the North Herts DC Local Plan proposed development of 2,100 houses East of Luton required solely to meet an Unmet Need from Luton Borough Council of 9,300 houses calculated in 2017 as argued in ED224, for the following reasons:-

- Valuable Green Belt land, it does not meet the criteria of Exceptional Circumstances.
- In recent years Luton's housebuilding has been much higher than the 2017 prediction, updated needs are significantly less than forecast 4 years ago, the Unmet Need has been reduced to 2,000.
- Luton's Unmet Needs have already been both accommodated within their boundary, and by Central Bedfordshire as the designated 'Best Fit' neighbour, with many already built, or in the process of being built.
- Luton's failure to ensure an adequate supply of family housing from developers.
- There is no longer an Unmet Need!

Respondent: Ms Cherry Newbery**Summary:**

I object to the North Herts DC Local Plan's proposed development of 2,100 houses East of Luton required solely to meet the unmet need from Luton of 9,300 homes calculated in 2017 as argued in ED0224, for the following reasons:

- Luton's unmet housing needs have already been more than covered by Central Beds as the designated 'best fit' neighbour, with many already having been started to be built.
- Luton's housing building is much higher than in 2017 forecast, updated assessment suggests figure to be around 2,000
- Luton's plans to extend and grow Luton Airport have changed dramatically due to Covid and Luton Council's precarious financial position in relation to borrowing it has made to the airport. Therefore the need for additional housing will be affected in Luton.
- The loss of valuable Green Belt land, with no exceptional circumstances in order to allow this to happen.
- More houses, more carbon footprint and loss of what we now know even more due to Covid is the need for green open spaces.

8645

Object

Respondent: Ms Feroza Bartlett**Summary:**

I wish to object to the proposed development of 2,100 homes EOL required solely to meet an unmet need from Luton of 9,300 homes calculated in 2017 as argued in ED224, for the following reasons:

1. Valuable green belt land will be destroyed that can never be recovered. There are no adequate exceptional circumstances for this. Brown field sites within the town should be used, or areas within the town centre which will become vacant due to the repercussions of Covid on retail. Green belt areas should always be protected.
2. Luton's house building is much higher than the 2017 forecast, updated assessed needs are lower, and unmet needs have been reduced to around 2000. These could be met by brown field sites, or using areas within the current town area.
3. Luton's unmet needs have already been more than covered by Central Beds as the designated "best fit" neighbour; with many already in build.
4. Luton has failed to require adequate family housing/ social housing from the developer
5. Roads in the area are already gridlocked at times. Further housing will only exacerbate this problem.

Please acknowledge my objection and keep me updated re the outcome of this plan.

Object

Respondent: Mrs Kirsty Newbould**Petition:** 4 petitioners**Summary:**

We as a family of 4 are writing to formally object via email to state that we are totally against the plans to build 2,100 houses on the Green Belt to the east of Luton, re ED224 for the following reasons:

- due to significantly increased grants of planning permissions and public announcements, Luton will be building around 14,700 houses through to 2031. compared to 8,500 stated in the LBC Local Plan. These are all on brownfield sites;
- an updated analysis of Luton's housing needs, carried out by Opinion Research Services in August 2020 at the request of the NHDC Inspector, showed that the previous housing requirement of 17,800 through to 2031 would now be reduced to 16,700;
- these two facts mean the unmet housing need from Luton drops to around 2,000 (16,700 -14,700), compared to 9,300 (17,800-8,500) in the Luton Local Plan;
- the Luton Inspector - when giving the go-ahead for the Luton Local Plan in 2017 - stated the 'best fit' for any unmet housing need was Central Beds which has committed to provide 7,350 dwellings. In fact, it has allocated 20 sites with capacity for at least 8,850 dwellings from which to provide that help. Hundreds of those houses are already built or under construction;
- had Luton carried out its Review, these figures would have come to light formally meaning that NHDC does not need to allow development at EOL;
- all this information is known to NHDC and yet it signed a Statement of Common Ground in December 2020 (ED224) with Luton, Bloor Homes and the Crown Estate sticking to the out-of-date numbers to continue justifying its EOL plans. Central Beds - the most important neighbouring local authority to Luton - was not a party to this Statement;
- Furthermore, there is no evidence at all that NHDC officials and Councillors have carried out adequate, or even any, due diligence on Luton's housing figures. This is of extreme concern but we believe our investigations have identified the accurate facts.

Object

Respondent: Mr David Wynn**Summary:**

I object to the North Herts District Council Local Plan proposed development of housing East of Luton.

This housing development is being proposed to allegedly "meet Luton's unmet housing need".

* The alleged Luton unmet housing need does NOT exist

- this stated need is based upon a totally ridiculous and non-updated forecast from 2017

- IF there is still any unmet Luton housing need, which I do not believe to be true any longer, then it would be more than covered by the building in excess of the original Luton Local Plan

- Central Bedfordshire are providing more houses than could possibly be needed for any possible Luton shortfall

* There is NO adequate exceptional circumstances to warrant building on the Green Belt

* There can be no excuse for building on the Green Belt just because Luton Borough Council has failed in its legal duty to update its own Local Plan.

Object

Respondent: Mr Chris Haden**Summary:**

I object to North Herts District Councils East of Luton housing development plan (ED224) for the following reasons:

· North Herts District Council based the case for the East of Luton housing development based upon flawed information in regards to Luton Borough Councils 2017 Local Plan policy LLP40.

· Luton's house building is far greater than it's 2017 forecast in which unmet needs are now reduced to around 2,000

· Luton's historic transient population changes as a result of the airport, Brexit, world and UK forecasted population number shifts.

· Central Beds District Council have provisioned Luton's unmet housing needs.

· Destruction of valuable Green Belt land and insufficient data provided to support a Biodiversity Gain Plan.

8955

Object

Respondent: Mr Andrew Rodell

Petition: 2 petitioners

Summary:

We object to the North Herts DC Local Plan's proposed development of 2,100 homes EOL required solely to meet an unmet need from Luton of 9,300 homes calculated in 2017 as argued in ED224, for the following reasons:

- Valuable Green Belt land; no adequate exceptional circumstances
- Luton's house building is much higher than 2017 forecast, updated assessed needs are lower, unmet needs reduced to around 2,000
- Luton's unmet needs have already been more than covered by Central Beds as the designated 'best fit' neighbour; with many already built
- Luton's failure to require adequate family housing from developers.

Object

Respondent: Mr David Dorman**Petition:** 2 petitioners**Summary:**

This email is further to the joint representation and consultation binder containing Appendices from myself Mr Dorman and Mr Parker covering Examination Document ED224 - the Statement of Common Ground between NHDC, Luton Borough Council, Bloor Homes and the Crown Estate re Luton Housing Market Area which was sent on 20 May, 2021 and lodged formally by automated response on 21 May, 2021.

We now wish to lodge an Addendum to this representation which includes a letter sent by email and hard copy to Cllr. Paul Clark, NHDC's Executive Member for Planning and which contains matter very relevant to the subject. These documents are attached herewith. Any response from Cllr. Clark and our observations on that response will also be registered in due course for the Inspector's considerations.
