Representations on Local Plan 2011-2031 Proposed Submission Draft by Mr Steve Hall

Dear Mr Berkerley

I wish to reiterate my previous objections and highlight the issue of local air pollution, damage to the local flora and fauna, in particular to the expanding populations of deer and red kites. They appear to have been overlooked the historic surveys carried out and will be further ignored now.

Air pollution is already a problem here and set to worsen with the houses and airport expansion and irresponsible New Century Park. Generally, we need more forests and trees, not more houses and traffic. Also our health will suffer. We have a right to clean air like anywhere else. It is a fundamental human right.

Regards

Steve Hall
