

Renewable electricity generation: (MWh) at Local Authority Level - 2021

This worksheet contains one table

The panes in this sheet have been frozen so that the titles can be seen while scrolling. To unfreeze them click 'View'

[y] denotes not applicable

Some cells refer to notes which can be found on the notes worksheet.

[X] means there was some generation in this local authority but it has been suppressed to prevent the output of individual plants being revealed

Local Authority Code [note 1]	Local Authority Name [note 5][note 6][note 7] [note 8][note 9]	Region	Country	Estimated number of households [note 2][note 3][note 4]	Photovoltaics	Onshore Wind	Hydro	Anaerobic Digestion	Offshore Wind	Wave/Tidal	Sewage Gas	Landfill Gas	Municipal Solid Waste	Animal Biomass	Plant Biomass	Cofiring	Total	
E07000099	North Hertfordshire	East of England	England	52,600	27,181	0	0	[X]	0	0	0	0	[X]	0	0	0	-	27,181
