Hertfordshire Minerals and Waste Local Plan 2022

This document is the Draft Policies Map which accompanies the Hertfordshire Draft Minerals and Waste Local Plan (July 2022).

The document comprises an Overview Map of the county, with 16 individual Grid Maps. The Overview Map shows the layout of the grid, with the letters corresponding to the individual Grid Maps. Mineral Allocation Sites (MAS) are shown on separate Inset Maps.

The Grid Maps and Inset Maps show the spatial policies contained within the Plan. Waste Management Sites (WMS) and Water Recycling Sites (WRS) are numbered. A table at the end of the document lists all of these sites, along with their corresponding number and Grid Map letter.

The Policies Map for the plan area is comprised of a set of Policies Maps produced and updated by each of the District and Borough councils within the county. Each Policies Map shows the spatial policies in the adopted Plan(s) applicable in that authority area, including the District or Borough Local Plan(s), the Minerals and Waste Local Plan, and any Neighbourhood Plans.

Following adoption of the Minerals and Waste Local Plan, all of the minerals and waste policies shown on the District and Borough Policies Maps, will be replaced with those contained within this Draft Policies Map.
