26 February 2018

Dear Louise

Once again I have to write a letter strongly objecting to a local housing plan that nobody wants to a Council/Planning Department that does not listen or even care!!!!

As you should be aware the roads to and from the development are no more than lanes and are very congested at most times during the day and certain times during the evening.

The whole idea of pollution levels seem to have been ignored for this area of Luton. I understand that this area has not had any pollution monitoring-perhaps you do not want to know what the levels are. As you are well aware air pollution causes all sorts of problems to everyone, especially the young and the old AND WE ARE ALL ENTITLED TO CLEAN AIR. The density of the proposed development is probably just under the government limits for this area of land.

More properties means more people, more vehicles, more pollution. We also have the proposed development of Century Park plus the large expansion at Luton Airport itself which will cause even more pollution problems.

I have been to a couple of the planning meetings, what a shambles. The planners do not seem to take into consideration the wishes of existing residents. The only winners are NHDC and Bloor Homes.

Developers promise the earth when obtaining the necessary planning permissions but in fact in reality provide very little.  
**WE ARE ALL ENTITLED TO CLEAN AIR.**
