16 November, 2018

Dear Representor,

Examination of the North Hertfordshire Local Plan 2011 – 2031

Inspector: Mr Simon Berkeley BA MA MRTPI

Following the hearing sessions of the Examination of the North Hertfordshire Local Plan held earlier this year, the Inspector has now reviewed all the material which he asked the Council to produce during those hearing sessions.

Following his review of the 'homework' and proposed main modifications the Inspector wrote to the Council on 29 October with his comments (Examination document ED160 and ED160A). Both these documents can be viewed via the link below:-

<https://www.north-herts.gov.uk/planning/planning-policy/local-plan/local-plan-examination/examination-documents>

At the hearing sessions the Inspector confirmed that all Regulation 19 Representors would be invited to comment in writing on any documents submitted by the Council during the examination which they had not already had the opportunity to comment on in writing.

All the homework documents fall into this category and I am now writing to inform you of the process for the consultation on these documents.

The Inspector has decided that because the 'homework' documents are closely interwoven and interlinked with the Main Modifications, and to prevent Representors from having to respond to two separate consultations, the two consultations should run together.

The inspector has asked for all the 'homework' documents, together with the draft schedule of main modifications and updated Sustainability Appraisal to be posted on the website by 20 November. As the Council will not be consulting on the main modifications until December at the earliest, this will give several weeks for Representatives to look at all the documents before the consultation on the main modifications and the 'homework' documents commences.

Once the Council have decided on the timings for the consultation they will be in contact to give you the details of the process for responding to the Consultation.

Yours sincerely,

Louise St John Howe
