CAG CONSULTANTS

Founded in 1983, CAG Consultants is an independent, employee-owned co-operative. We provide support, research and analysis, policy advice and training in a wide range of fields relating to sustainable development and climate change. We have practitioners in stakeholder & community involvement, regeneration, evaluation, economics and regulatory affairs. We deliver high quality, innovative and thoughtful work for our clients, who include government departments, local authorities, public agencies, the NHS and regeneration and community planning partnerships across the UK. We pride ourselves on our strong ethical approach and our commitment to social justice and improving and protecting the environment.

CAG Consultants' Quality Management System is approved to the Quality Guild standard.

For more information, see www.cagconsultants.co.uk

Appendix A: Screening of further proposed modifications

This Appendix shows the results of the screening of the further proposed modifications. The findings are presented by the addition of two new columns to the seven sections in the schedule of modifications produced by the Council. These two columns comment on the SA implications for the modification, and whether or not the modification was screened into the SA.

This document produced by the Council sets out a schedule of potential further modifications to the North Hertfordshire Local Plan 2011-2031. These changes follow the correspondence between the Inspector and the Council since the close of the first Main Modifications consultation in April 2018 and the further hearing sessions held between November 2020 and February 2021.

Text which would be added to the plan as a consequence of modifications is shown in **bold**. Text which would be removed from the plan as a consequence of these modifications is shown ~~struck through~~.

Changes included in the original Schedule of proposed Main Modifications (November 2018) are shown in black text with the accompanying 'MM' reference number. These modifications have already been subject to consultation and comments on these are **not** invited.

The further modifications now arising are **shown in red text** with a new 'FM' reference number. **Only the Further Modifications shown in red text are subject to consultation and any representations should be directed to these proposed changes only.**

Changes are shown relative to the version of the Local Plan that was submitted for examination in June 2017 (LP1). Additional text that was proposed to be added to the plan in the November 2018 Main Modifications but which is now not proposed or has been replaced by alternate text through the proposed Further Modifications is not shown.

FM 010	6	Paragraph 1.5 and Footnote 1	<p>The National Planning Policy Framework (NPPF)¹ was first published in 2012 and was revised in 2018. The NPPF sets out the Government’s planning policies for England and must be taken into account along with other national planning policy in the preparation of local and neighbourhood plans and in determining planning applications. The NPPF is supplemented by detailed Planning Practice Guidance (PPG), first released in 2014, which provides additional detail on certain topics. Local plans must be consistent with national planning policy to pass examination. This Local Plan has been prepared in accordance with the 2012 version of the NPPF.</p> <p>¹ National Planning Policy Framework (DCLG) March 2012 – http://www.communities.gov.uk https://www.gov.uk/government/publications/national-planning-policy-framework--2</p>	To ensure the plan is positively prepared , and consistent with national policy ; factual update	Update of the background text	No
MM 004 / FM 011	7	Paragraph 1.12	<p>The first step in preparing a neighbourhood plan is to define a neighbourhood area. There are currently eleven thirteen neighbourhood planning areas designated within the District with one further community another two communities considering preparing a neighbourhood plan. Three neighbourhood plans have been “made” and form part of the Development Plan, Pirton, Wymondley and Preston. Those plans under preparation include the parishes of Kimpton, Ashwell, Codicote, Barkway and Nuthampstead, Ickleford, St Ippolyts, St. Pauls Walden, Wymondley, Preston and Knebworth, Wallington and the joint neighbourhood planning area of Bygrave, Baldock & Clothall.</p>	To ensure the plan is positively prepared ; factual update	Update of the background text	No

			⁹ ONS (2016-2019) Population Estimates by single year of age			
FM 017	12	Paragraph 2.8 / Footnote 10	Official statistics indicate that the population is likely to increase over the next 15 10 years by just over 24,000 nearly 9,000 residents (population estimate at 2031 – 153,400-146,500) ¹⁰ . This is due to a combination of factors, including people living longer, changes in social patterns, and the attractiveness of the District as a place to live. This will put considerable pressure not just on our housing numbers but on vital social support mechanisms such as schools and GP surgeries as well as our transport infrastructure.	To ensure the plan is positively prepared ; factual update	Update of the background text	No
			¹⁰ Stevenage and North Hertfordshire SHMA Update 2015 ONS 2016			
FM 018	12	Paragraph 2.10 and Footnotes 11-13	More than 8 in 10 (86.9%) (87.6%) of North Hertfordshire's 16-64 year olds are economically active (in or seeking employment) compared to a national figure of 79% 77.8% ¹¹ . The unemployment rate in North Hertfordshire is 3.4% 2.8% ; this is below the East of England figure (3.8%) (3.6%) and below the national rate (4.2%) (5.1%) ¹² . Approximately 1 in 5 (13.1%) (12.4%) of North Hertfordshire's 16-64 year olds are economically inactive ¹³ .	To ensure the plan is positively prepared ; factual update	Update of the background text	No
			¹¹ Nomis (2016 2020) – Official Labour Market Statistics; Employment and unemployment (Apr 2015 – Mar 2016) (Oct 2019 – Sept 2020)			
			¹² Nomis (2016) (2020) – Model based estimates of unemployment (July 2016) (Sept 2020)			
			¹³ Nomis (2016) (2020) – Official Labour Market Statistics; Employment and unemployment (Apr 2015 – Mar 2016) (Oct 2019 – Sept 2020)			
FM 019	12	Paragraph 2.11 and footnote 14	According to the 2015 2019 Index of Multiple Deprivation, North Hertfordshire is relatively affluent compared to other local authority areas. The District ranks 271st 269th out of 326 317 local authority	To ensure the plan is positively prepared	Update of the background text	No

Appendix A: Screening of Further Proposed Modifications

			just 7,000 8,500 . The most recent projections for Luton did not lead to a meaningful change in the housing situation presented in Luton's adopted Plan. The issue of unmet needs from Luton is therefore a significant matter to be considered under the Duty to Co-operate.			
FM 030	19	Paragraph 2.45	A number of key plans and strategies are produced at a county level to which the Council should have regard to in preparing the Local Plan. Key amongst these is are the: <ul style="list-style-type: none"> • Strategic Economic Plan, 2017 - 2030 and Growth Deal of both the Hertfordshire Local Enterprise Partnership (LEP) and the Greater Cambridge, Greater Peterborough LEP. • Hertfordshire Local Nature Partnership • Hertfordshire Waste and Minerals Local Plans • Hertfordshire Local Transport Plan 	To ensure the plan is positively prepared ; factual update	Update of the background text	No
FM 031	19	Paragraph 2.46	In October 2013 the Hertfordshire LEP published their Strategic Economic Plan for the county which was refreshed in July 2017 . This strategy sets out the LEPs vision, that by 2030, Hertfordshire will be the leading economy at the heart of the UKs Golden Triangle, which encompasses Cambridge, Oxford and London. To deliver the vision, the LEP has identified a number of priority areas, which represent major opportunities for Hertfordshire. These include: <ul style="list-style-type: none"> • Maintaining Hertfordshire's global excellence in science and technology; • Harnessing Hertfordshire's relationship with London (and elsewhere); • and Re-invigorating Hertfordshire's places for the 21st Century; and 	To ensure the plan is positively prepared ; factual update	Update of the background text	No

Appendix A: Screening of Further Proposed Modifications

Ref.	Page LP1	Policy / Paragraph	Modification	Reason / source	SA implications of further mods (red text)	Screened into SA (Yes/No)
			<ul style="list-style-type: none"> Building the wider foundations for growth across both businesses and people. 			
FM 032	19	Paragraph 2.48 (delete)	<p>Given that the northern part of the District is heavily influenced by the Cambridgeshire economy, the District is also part of <u>Greater Cambridge, Greater Peterborough LEP</u>. The goal of the <u>Greater Cambridge, Greater Peterborough LEP</u> is to create an economy with 100,000 major businesses and create 160,000 new jobs by 2025, in an internationally significant low carbon, knowledge-based economy, balanced wherever possible with advanced manufacturing and services.</p>	To ensure the plan is positively prepared ; factual update	Update of the background text	No
FM 033	19	Paragraph 2.49	The Hertfordshire LEPs are is responsible for bidding and prioritising infrastructure investment within their areas the county .	To ensure the plan is positively prepared ; factual update	Update of the background text	No
FM 034	20	Paragraph 2.56	The County Council is also the Highway Authority with responsibility for transport matters. This Plan supports key priorities and proposals from the Hertfordshire Local Transport Plan (LTP3) (LTP4) adopted in 2011-2018 . LTP3 LTP4 sets out the transport strategy for Hertfordshire (over the period from 2011-2018 to 2031), the goals and challenges to be met, and outlines a programme of transport schemes and initiatives to be delivered subject to available funding. The LTP covers all modes of transport - including walking, cycling, public transport, car based travel and freight - and takes account of the effect of transport on wider aspects including the economy, environment, climate change and social inclusion.	To ensure the plan is positively prepared ; factual update	Update of the background text	No
FM 035	20	Paragraph 2.57	It will therefore be necessary to both have regard to this strategy and work with the Highway Authority when taking forward the development sites set out in the Local Plan. Work on the next iteration of the LTP—the 2050 Transport Vision—is well under way	To ensure the plan is positively prepared ; factual update	Update of the background text	No

				including ED203 and ED214.		
FM 044	36	4.26	Trend-based forecasts reflect these patterns and anticipate continued increases in out-commuting from North Hertfordshire over the plan period ¹ . Unchecked, this would lead to increased pressure on transport infrastructure that is already under strain at peak periods. This Plan therefore makes employment provision for offices, research and development, light industrial, general industry and storage and distribution at above modelled levels.	As above	As above	No
MM 015 / FM 045	37	4.28	A significant new employment allocation for certain E class uses (office, research and development, industrial processes), B2 (industrial) and B8 (storage and distribution) class uses site will be developed out at the east of Baldock, supporting the proposed increase in residential development in the town (see Policy SP8). The allocation benefits from proximity to existing employment uses as well as existing and planned residential development. It has access to the strategic road network via the A505 Baldock Bypass.	As above	As above	No
FM 046	37	4.33	Within these designated areas, an appropriate range of offices, research and development, light industrial, general industry and storage and distribution B-class uses will be permitted in line with the detailed policies of this Plan.	As above	As above	No
FM 047	37	4.34	B-class uses will not be solely confined to designated employment areas. A number of employment premises are located outside of defined areas and these will continue to be supported where they are compatible with other surrounding uses. In particular, office	As above	As above	No

Appendix A: Screening of Further Proposed Modifications

Ref.	Page LP1	Policy / Paragraph	Modification	Reason / source	SA implications of further mods (red text)	Screened into SA (Yes/No)
			uses will continue to be supported in the main town centres (see Policy SP4), in line with national planning policy.			
FM 048	37	4.35	Beyond our main towns, there is a steady demand for rural employment land and premises. Owing to the size and extensive spread of rural settlements these types of development are best dealt with on a case-by-case basis rather than through allocations, although our general approach will be to direct concentrations of rural business to the Category A larger villages. There are quite sizeable employment sites in villages such as Ashwell, Codicote, Kimpton, Little Wymondley and Weston which provide rural jobs and should be retained.	For effectiveness consequential to modifications to Policy SP2	No impact on the broad impacts of the approach	No
FM 049	38	4.36	Approximately 45% of all jobs fall within the office, research and development, light industrial sectors or into the B uses classes. The rest of the jobs in the local economy consist of services such as retail, health, education and leisure, or 'footloose' careers in sectors such as construction and the trades. The role of these non-B-class sectors in the overall employment balance of the District is recognised and will continue to be supported where appropriate .	For legal compliance in response to the Use Class Order amendments following the Matter 29 hearing as supported by the statement to that session and documents including ED203 and ED214.	Update of the background text to reflect changes to the Uses Classes Order	No
MM 017 /	38	Policy SP4	Policy SP4: Town Centres, and Local Centres and Community Shops	For legal compliance and	Update of the wording to	No

			Class A uses.	the Use Class Order amendments following the Matter 29 hearing as supported by the statement to that session and documents including ED203 and ED214	changes to the Uses Classes Order	
MM 019 / FM 052	39	Paragraph 4.40	We are committed to promoting the well-being of the town centres in the District. Town centre strategies have been produced for the main centres of Hitchin, Baldock, Letchworth Garden City, and Royston. These promote the vitality and viability of the centres and cover all those aspects of policy guidance with a spatial dimension relevant to town centres, including economic, environmental and social well-being and matters such as community safety, community facilities, traffic management, marketing and delivery. The strategies provide a method of keeping town centre development up-to-date and flexible to take account of ongoing changes in the retail environment, and will inform whether it is necessary to review the retail strategy set out in this Plan. Work on these town centre strategies will commence within 12 months of the adoption of this Plan. They will be monitored and reviewed during the life of this Plan.	For effectiveness in response to the Inspector's August 2019 letter (Paragraph 10)	The modified text provides greater clarity on the use of the town centre strategies but would not impact on appraisal outcomes	No
FM 053	39	Paragraph 4.41	Our detailed policies set out our approach to development applications, including for changes of use. In general terms, A1-retail shops will be expected to concentrate within the defined primary	For legal compliance and	Update of the background text to reflect	No

					appraisal outcomes	
MM 021 / FM 055	39-40	Paragraph 4.46	Our evidence shows there will be a steady growth in retail demand over the plan period, although projected growth post-2026 carries a degree of uncertainty due to changing shopping and retail patterns and the effects of Covid- 19. Projected growth is driven in part by planned population growth but also by underlying changes in the way people shop and how much money they have available to spend. It is anticipated that on-line shopping will continue to grow whilst a certain amount of future demand can be accommodated through the re-occupation of existing, vacant shop units. However, it is also necessary to identify new sites for retail ² . Projected retail needs, and particularly those in the post-2026 period, will be kept under review via the monitoring framework and updated retail studies.	For effectiveness following the Matter 29 hearing	Further emphasis on the uncertain nature of retail demand but this simply provides greater detail to the background text	No
FM 056	43	Paragraph 4.66	The overarching transport policy document for the area is the Hertfordshire Local Transport Plan (LTP3) (LTP4) which provides the framework for achieving better transport systems in Hertfordshire for the plan period 2011 2018 -2031. The LTP4 is in progress which will cover the Hertfordshire 2020 Transport vision and will be consulted on in late 2016. LTP4 was adopted in 2018. The Local Transport Plan covers all modes of transport including walking, cycling, public transport, car based travel, reducing road freight movements and making provision for those with mobility impairments.	To ensure the plan is positively prepared ; factual update		
MM 035 / FM 057	47-48	Policy SP8	<p>Policy SP8: Housing</p> <p>Over the period 2011-2031, housing growth will be supported across the District. We will:</p> <ul style="list-style-type: none"> a. Release sufficient land to deliver at least 14,000 11,600 net new homes for North Hertfordshire's own needs. Of these: <ul style="list-style-type: none"> i. Around 13,800 11,500 net new homes will be provided within that part of the District falling 	To ensure the plan is positively prepared, justified, effective and consistent with national policy	The overall level of housing growth proposed up to 2031 is lower but the effects of the	Yes

			<p>target to build 20% of new homes on previously developed land;</p> <ul style="list-style-type: none"> As part of our comprehensive review of the Green Belt, a number of additional villages have been 'inset' with boundaries drawn to release additional land for development. These locations will contribute around 2,600 homes to our target whilst also ensuring the long term sustainability of these settlements. A series of developments around the edge of Royston will contribute almost 1,000 further homes; while Sites for over 2,200 homes, in addition to the strategic sites, are identified within the adjusted settlement boundaries of the towns; Sites for nearly 1,600 homes are identified at five village locations identified by Policy SP2; while A review of the settlement boundaries in the Rural Areas Beyond the Green Belt of Category A villages allows for approximately 400 180 homes. 	<p>effective and consistent with national policy following the Matter 22 to 26 hearings as supported by the statements to those sessions and documents including ED161, ED172, ED191A and ED191B</p>	<p>will be addressed through the site appraisals</p>	
MM 039 / FM 061	49	Paragraph 4.96	<p>This Plan also makes provision to meet the future needs of the Gypsy and Traveller community. Existing arrangements at the Pulmer Water site near Codicote will be formalised. A new site is allocated at Woodside Place, Danesbury Park Road at the southern edge of the District allowing requirements over the period to 2031 to be met.</p>	<p>To ensure Plan is positively prepared and justified consequential to FM057</p>	<p>Will be picked up in site appraisals and policy HS7</p>	No
FM 062	49	Paragraph 4.98	<p>This needs to be balanced against realistic expectations about when we can expect to see new homes being built. This is especially the case on the largest new sites which require the certainty provided by this Plan in order to proceed and can require significant up-front investment in infrastructure such as new roads. As a result, most of the planned new homes are likely to will be delivered after 2021.</p>	<p>For effectiveness in line with the approach suggested by ED178 (as subsequently</p>	<p>None</p>	No

Appendix A: Screening of Further Proposed Modifications

Ref.	Page LP1	Policy / Paragraph	Modification	Reason / source	SA implications of further mods (red text)	Screened into SA (Yes/No)
				superceded by Matter 22 / ED191B)		
FM 063	49	After Paragraph 4.98 (new paragraph)	The spatial strategy proposed by this Plan requires the simultaneous delivery of a number of strategic sites around the main towns. There will be challenges in this approach. These include the capacity of the development industry to deliver and the ability of the market to absorb these new homes. We will support higher delivery rates where possible. This might include using innovative approaches to construction. We will develop a greater understanding of the rates of housing delivery that can be achieved as schemes are progressed and reflect these in the review of the plan as set out in Policy IMR2.	As above	This text appears to relate primarily to policy IMR1 and IMR2, which sets out plans for increasing intensity of delivery during the Plan period. The impacts will be picked up in the appraisal of that policy.	No
MM 040 / FM 064	50	Paragraph 4.99	A stepped approach is considered most appropriate to deal with these issues. An average of 313 homes per year were built over the first nine years of the plan period between 2011 and 2020. Moving forward, housing supply will be measured against targets to deliver an average of 500 homes per year over the first ten years of the plan period (2011–2021) period to 31 March 2024. For the period beyond 2024, From 1 April 2024 a target of 1,100 1,120 homes per year will apply. Our approach to five-year land supply is set out in Policy IMR1 in Chapter 14.	To ensure the plan is positively prepared, justified, effective and consistent with national policy following the Matter 22 to 26 hearings as supported by the statements to those sessions	The proposed modifications to the rates of housing delivery are not significant enough to impact on appraisal outcomes	No

Appendix A: Screening of Further Proposed Modifications

Ref.	Page LP1	Policy / Paragraph	Modification	Reason / source	SA implications of further mods (red text)	Screened into SA (Yes/No)
				and documents including ED191B and ED215		
MM 043 / FM 065	50	Paragraph 4.105	In taking this approach, it is recognised that a review of this Local Plan will need to conclude before the end of the plan period in 2031 we are required to undertake a review of the Plan every five years to see if it needs to be updated. This Plan commits to undertaking a full review by the end of 2023, well within the five-year period. It is reasonable to assume that some development will be realised from whichever sites are identified through this process in the period after 2026. An allowance of 500 homes has been included in our housing figures.	To ensure the Plan is positively prepared and effective in line with the approach suggested by ED178 (as subsequently superseded by Matter 22 / ED191B)	None	No
FM 066	50	Paragraph 4.106	Policy IMR2 in the Monitoring and Delivery Chapter of this Plan sets out in greater detail how we expect the local plan review process to occur.	For effectiveness consequential to modifications to Policy SP8 and Paragraph 4.105	None. Policy IMR2 addressed separately below	No
MM 045 / FM 001	52	Policy SP9	Policy SP9: Design and sustainability The Council considers good design to be a key aspect of sustainable development. We will a. Support new development where it is well designed and located and responds positively to its local context; x. Require Strategic Masterplans to be produced for Strategic Housing Sites and other significant development by the landowner/applicant in collaboration with the Council and subject to consultation with key stakeholders and the community.	For consistency with national policy and for effectiveness following Matter 32 hearing session	The proposed further modifications represent a significant extension of the scope of the policy, with many of the additional	Yes, including consideration of assessment of cumulative impacts and of mitigation table

Appendix A: Screening of Further Proposed Modifications

Ref.	Page LP1	Policy / Paragraph	Modification	Reason / source	SA implications of further mods (red text)	Screened into SA (Yes/No)
			<p>Significant development generally comprises residential developments above 100 dwellings. Exceptionally, developments under 100 dwellings will be considered significant if there are site specific complexities and sensitivities that require a masterplan-led approach. In some circumstances a Strategic Masterplan may also be required to consider the cumulative impact of more than one site to support a co-ordinated and integrated approach to place-making and design.</p> <p>b. Require Strategic Masterplans and planning applications for Strategic Housing Sites and significant developments to (as applicable):</p> <ul style="list-style-type: none"> i. Create buildings, spaces and streets which positively reflect and respond to the local landscape, townscape and historic character; ii. Create integrated, accessible and sustainable transport systems with walking, cycling and public transport designed to be the most attractive forms of transport and effectively linking into the surrounding areas; iii. Provide a clear structure and hierarchy of pedestrian friendly streets and well-connected footpaths and cycle ways integrated with the wider built and natural environment and communities; iv. Plan for integrated and mixed-use communities with walkable locally accessible community, employment and retail facilities; v. Positively integrate with adjacent rural and urban communities and positively contribute to their character and the way the area functions, including 		<p>criteria relating directly to SA criteria. The additional policy wording may also impact on the assessment of cumulative impacts of the Plan, potentially providing mitigation of some of these impacts. Furthermore, the mitigation table needs to be updated to reflect these modifications, and modifications to other policies.</p>	

Appendix A: Screening of Further Proposed Modifications

			<p>addressing cumulative, cross boundary planning and infrastructure matters;</p> <ul style="list-style-type: none"> vi. Provide a diverse and distinctive range of flexible and adaptable house types, tenures and building forms to meet the differing needs of the population; vii. Create an accessible multi-functional green infrastructure network that provides: <ul style="list-style-type: none"> • a key structuring and functional placemaking feature supporting healthy lifestyles, sport, play and recreation, linking into the wider Green Infrastructure Network; and • a high quality, integrated network to support ecological connectivity, biodiversity net gain, climate change mitigation and adaptation and linking into the wider Ecological Network; viii. Ensure the effective use of sustainable urban drainage and sustainable water management; ix. Ensure a hierarchy of linked, high quality and attractive public spaces and public realm that is safe, attractive and supports social interaction for all age groups; and x. Design to last with clear stewardship, management and maintenance plans x. Ensure Strategic Masterplans are informed by a technical and design evidence base and include the following for Strategic Housing Sites and where applicable for other significant development: <ul style="list-style-type: none"> i. Site specific vision and placemaking principles 			

Appendix A: Screening of Further Proposed Modifications

Ref.	Page LP1	Policy / Paragraph	Modification	Reason / source	SA implications of further mods (red text)	Screened into SA (Yes/No)
			<ul style="list-style-type: none"> ii. Masterplan setting out the quantum, scale, type, mix and distribution of land uses, housing and community facilities iii. Green Infrastructure Framework identifying the scale, distribution, type and design of green spaces, biodiversity net gain, strategic drainage, on and off-site linkages iv. Movement Framework setting out the key access points, strategic highways, street hierarchy and footways and cycleways (on and off site) v. Urban Design Framework and design principles identifying how the site responds to local character and context and key structuring elements and layout principles (including heights and densities) vi. Sustainability & Energy Framework identifying site wide and building scale opportunities for low and zero carbon vii. Illustrative Masterplan Layout viii. Infrastructure Delivery, Phasing & Management Strategy x. Confirm the scope and contents of individual Strategic Masterplans with applicants in pre-application discussions. To ensure sites are comprehensively planned and delivered planning applications should be preceded by and consistent with a Strategic Masterplan agreed by the Council. Where applications have already been submitted to the Council a Strategic Masterplan should be agreed with the Council prior to or as part of the grant of planning permission. Adherence to the Strategic Masterplan will be secured through planning conditions and/or legal agreement. 			

Appendix A: Screening of Further Proposed Modifications

			<p>c. Assess proposals against detailed policy requirements set out in this Plan and have regard to the Design SPD; and</p> <p>d. Adopt the Government’s additional technical standards for the size of new homes, water efficiency and, in specified circumstances, accessibility.</p>			
FM 002	52	Paragraph 4.116 (and new paragraphs thereafter)	<p>The largest sites will be masterplanned in accordance with any requirements set out in Policies SP14 SP19 and the Communities section of this Plan to maximise their benefits. Policy SP9 sets out the strategic design and masterplanning expectations of the Council for the Strategic Housing Sites and other significant development. The policy has to apply to a wide range of developments in terms of quantum, scale and complexity. The policy should be applied in its entirety to Strategic Housing Sites but for other significant development a tailored and case-by-case approach will be required to identify a proportionate level of masterplan and design detail to secure design quality dependant on site specific issues and the level of detail submitted with any planning application.</p> <p>4.xxx Strategic Masterplans are an effective tool in securing comprehensive and timely delivery and securing design quality and positive place outcomes. Masterplans support comprehensive, integrated, well- planned and sustainable places in terms of the natural, built and historic environment. An effective masterplanning process helps to support a multi-disciplinary, integrated, inclusive and collaborative approach to securing quality design and delivery. It also assists with resolving and co-ordinating planning issues at an early stage in the process speeding up decision-making and driving forward delivery through a shared vision. This both de-risks and provides certainty.</p>	As above	The impact of these modifications will be picked up in the assessment of policy SP9	This supporting text will be assessed alongside the policy text

Appendix A: Screening of Further Proposed Modifications

Ref.	Page LP1	Policy / Paragraph	Modification	Reason / source	SA implications of further mods (red text)	Screened into SA (Yes/No)
			<p>4.xxx Strategic Masterplans will be prepared on a staged basis, initially evaluating and agreeing baseline technical, character and design analysis and assessments, then agreeing a shared vision and set of place-making objectives, exploring and testing a series of options with stakeholder input and then the agreement of a preferred option and masterplan.</p> <p>4.xxx For large sites that are developed over a long time period, strategic masterplans may require review and be flexible to adapt to changing circumstances. A Strategic Masterplan is not a blueprint, it is a framework within which further planning and design instruction can emerge over time.</p>			
FM 067	53	Policy SP10(e)	<p>e. Work with Hertfordshire County Council and education providers to ensure the planning system contributes to the provision of sufficient school places and facilitates the provision of new or expanded schools in appropriate and accessible locations. This will include monitoring of projected future demand to inform the review of this plan in relation to secondary education provision for the Stevenage area;</p>	To ensure the plan is positively prepared and consistent with national policy in response to the Inspector's August 2019 letter.	Provides greater specificity in relation to Stevenage area, which is unlikely to materially impact on appraisal outcomes.	Include in cross boundary cumulative effects.
FM 068	54	After Paragraph 4.127 (new paragraph)	<p>Forecasting education demand that will arise from new developments over the long-term is challenging. It is difficult to predict with certainty how and when school places will be needed until developments are built and new families move in. This is a particularly complex issue in the Stevenage area where housing developments have been proposed by three local authorities (North Hertfordshire, East Hertfordshire and Stevenage) across a wide number and variety of sites contained in separate local plans. These plans set out allocations and requirements for secondary education</p>	To ensure the plan is positively prepared and consistent with national policy in response to the Inspector's August 2019 letter.	Supporting text for the policy change above	No, but this highlights the need to update the inter-plan cumulative effects (section 7.4) in the final SA report. Both E Herts and

Appendix A: Screening of Further Proposed Modifications

Ref.	Page LP1	Policy / Paragraph	Modification	Reason / source	SA implications of further mods (red text)	Screened into SA (Yes/No)
			that could meet demand well into the 2030s. However, this issue needs to be kept under review particularly as alternative sites and opportunities which supplement those identified in current Plans and / or better address the County Council's operational preferences may arise over this period. We will monitor long-term forecasts of demand with the County Council to inform the early review set out in Policy IMR2.			Stevenage now have adopted Plans
MM 050 / FM 069	56	Policy SP12	<p>Policy SP12: Green infrastructure, <u>landscape and biodiversity and landscape</u></p> <p>We will accommodate significant growth during the plan period whilst ensuring the natural environment is protected and enhanced. We will:</p> <ul style="list-style-type: none"> a. Protect, enhance and manage the green infrastructure network and seek opportunities to create new green infrastructure; Protect, identify, manage and where possible enhance a strategic multi-functional network of green infrastructure; x. Consider and respect landscape character, scenic beauty and locally sensitive features, particularly in relation to the Chilterns Area of Outstanding Natural Beauty; x. Protect, enhance and manage sites in accordance with the following hierarchy of designations and features: <ul style="list-style-type: none"> a. Internationally designated sites b. Nationally designated sites c. Locally designated sites; d. Non-designated sites that include important habitats and species b. Protect, enhance and manage biodiversity networks including wildlife corridors, ancient woodlands and 	For effectiveness & consistency with national policy and in response to the Inspector's August 2019 letter (Paragraph 14) and following the Matter 28 hearing session	The proposed further modifications further strengthen the policy's support for the protection and enhancement of the natural environment. Although these changes are significant, since the policy scored positively against the environmental protection criteria, they would not materially alter	No, apart from taking into account in updating the mitigation table

Appendix A: Screening of Further Proposed Modifications

MM 372 / FM 187	222	New Policy IMR1	<p>Policy IMR1 Five Year Housing Land Supply</p> <p>In order to identify and update annually a supply of specific deliverable sites sufficient to provide five years worth of housing, we will:</p> <p>a. Deliver the total housing requirement of 13,000 net dwellings over the plan period on a stepped basis. The Council's five year housing land supply will be measured against housing requirement targets of:</p> <ul style="list-style-type: none"> 350 dwellings per annum for the plan period from 2011 to 31 March 2020; 500 dwellings per annum for the plan period from 1 April 2020 to 31 March 2024; and 1,120 dwellings per annum for the remainder of the plan period from 1 April 2024 to 2031; <p>b. Add any shortfall in housing delivery since the plan's start date, spread evenly over the remaining plan period, to the calculation of the requirement;</p> <p>c. Ensure that the supply of specific, deliverable sites includes a buffer (moved forward from later in the plan period) in line with national planning policy; and</p> <p>d. Monitor housing completions and permissions on an ongoing basis to ensure the housing trajectory is based upon robust and up-to-date information and assumptions.</p>	To ensure the plan is positively prepared, justified, effective and consistent with national policy following the Matter 21 to 26 hearings as supported by the statements to those sessions and documents including ED172, ED191A and ED191B	The overall level of housing growth proposed up to 2031 is lower but the effects of the Plan must be considered beyond that date since it allocates sites which involve provision beyond that date. Because of the high-level of nature of the SA of policies, such changes are unlikely to significantly impact on overall appraisal outcomes,	Yes

Appendix A: Screening of Further Proposed Modifications

Ref.	Page LP1	Policy / Paragraph	Modification	Reason / source	SA implications of further mods (red text)	Screened into SA (Yes/No)
					particularly as it mirrors a reduction in the level of OAN. However, changes to the proposed timing of housing provision may, in turn, impact on the timing of SA outcomes so this needs to be checked.	
MM 373 / FM 188	222	After proposed new Policy IMR1 (new paragraphs)	<p>Figure 6 over-page shows the anticipated housing trajectory. This will be kept up-to-date in future monitoring reports. This programme of delivery will allow the plan to demonstrate a five-year land supply at the point of adoption and, subsequently, on an on-going basis.</p> <p>In order to achieve this, the plan uses a stepped approach to the housing requirement. For the period to 1 April 2020, a housing requirement of 350 dwellings per annum is applied recognising that the quantum of development delivered from the start of the plan period in 2011 to this date is fixed. This increases to 500 dwellings per year between 2020 and 2024 before rising to a requirement for 1,120 dwellings per annum over the remaining years of the plan period.</p>	As above	This provides further detail regarding the above policy modifications	As part of the appraisal of policy IMR1

Appendix A: Screening of Further Proposed Modifications

Ref.	Page LP1	Policy / Paragraph	Modification	Reason / source	SA implications of further mods (red text)	Screened into SA (Yes/No)
			<p>This approach is linked to development strategy set out in this plan. A significant proportion of future new homes will be delivered upon new strategic sites. Delivery of these sites requires their release from the Green Belt which is achieved through this plan. However, this means that in the first half of the plan period from 2011 to 2021, reliance has been placed upon sites permitted under the previous policy regime and extant planning permissions.</p> <p>In the second half of the plan period from 2021, the Local Housing Allocations released from the Green Belt will be critical to maintaining the delivery profile and a rolling five-year land supply. It is anticipated that the Strategic Housing Sites will become the main component of new housing supply in the latter years of the plan. The stepped approach to housing delivery over the plan period allows a better match with actual and anticipated delivery.</p> <p>The same circumstances support a measured approach to meeting the shortfalls in housing delivery that have occurred since 2011. To this end the plan does not seek to meet the full extent of any backlog of delivery within the first five years (known as the <i>Sedgefield</i> approach) but rather seeks to meet this backlog over the remainder of the plan period (the <i>Liverpool</i> approach).</p> <p>In addition to the measures above, national policy requires a buffer, moved forward from later in the plan period, to be applied to the calculation of the five year supply^x. This buffer should be a minimum of 5% but, where there has been a record of persistent under delivery of housing, this should be increased to 20%.</p>			

Appendix A: Screening of Further Proposed Modifications

Ref.	Page LP1	Policy / Paragraph	Modification	Reason / source	SA implications of further mods (red text)	Screened into SA (Yes/No)
			<p>In the period from the start of the plan period on 1st April 2011 to 31st March 2020 the delivery of housing completions in the District were well below the 650 dwellings per annum that would be necessary if the requirement were to be met evenly over the whole plan period, averaging 313 dwellings per annum. This necessitates the application of a 20% buffer at the point of the plan's adoption.</p> <p>The buffer requirement will be added to both the housing requirement and any backlog in delivery to be met over the five year period under assessment.</p> <p>These approaches are set out in Policy IMR1 and will be the basis of the housing land supply calculations that are produced for monitoring purposes over the plan period. The delivery of sites will be monitored and will inform the plan review set out in Policy IMR2.</p> <p>^x Paragraph 47 of the NPPF</p>

CAG CONSULTANTS

Founded in 1983, CAG Consultants is an independent, employee-owned co-operative. We provide support, research and analysis, policy advice and training in a wide range of fields relating to sustainable development and climate change. We have practitioners in stakeholder & community involvement, regeneration, evaluation, economics and regulatory affairs. We deliver high quality, innovative and thoughtful work for our clients, who include government departments, local authorities, public agencies, the NHS and regeneration and community planning partnerships across the UK. We pride ourselves on our strong ethical approach and our commitment to social justice and improving and protecting the environment.

CAG Consultants' Quality Management System is approved to the Quality Guild standard.

Appendix B: Appraisal of 'Screened-in' Modifications

Policy SP2: Settlement hierarchy and spatial distribution

Between 2011 and 2031, the plan makes provision for at least **13,000** new homes.

Approximately **80%** The majority of the District's housing development and the substantial majority of new employment, retail and other development will be located within the adjusted settlement boundaries of or adjoining the following towns:

- Baldock (**2,198** homes)
- Hitchin (**1,842**)
- Letchworth Letchworth Garden City (**1,928**)
- Royston (**1,899**)
- Stevenage (including Great Ashby)³² (**1,705**); and
- Luton³² (**1,485**)

Approximately **13%** of housing, along with supporting infrastructure and facilities will be delivered within the adjusted settlement boundaries of the following five villages for the levels of development indicated:

- Barkway (**208**)
- Codicote (**363**)
- Ickleford (**235**)
- Knebworth (**731**)
- Little Wymondley (**312**)

The remaining development will be dispersed across the District as set out below:

In Category A villages, general development will also be allowed within the defined settlement boundaries of

- Ashwell;
- Barley;
- Breachwood Green;
- Cockernhoe & Mangrove Green;
- Graveley;
- Hexton;
- Kimpton;
- Lower Stondon;
- Oaklands;
- Offley;
- Pirton;
- Preston;
- Reed;
- Sandon;
- St Ippolyts & Gosmore;
- Therfield;
- Weston; and
- Whitwell.

Infilling development which does not extend the built core of the village will be allowed in the Category B villages of:

- Blackmore End;
- Great Wymondley;
- Hinxworth;
- Holwell;
- Kelshall;
- Lilley;
- Newnham;
- Old Knebworth;
- Rushden;
- Wallington; and
- Willian.

Limited affordable housing and facilities for local community needs meeting the requirements of Policy CGB2 will be allowed in the Category C settlements of:

- Bygrave;
- Caldecote;
- Clothall;
- Langley;
- Nuthampstead;
- Peters Green; and
- Radwell

Development outside of these locations or general parameters will be permitted where this is supported by an adopted Neighbourhood Plan. Under the provisions of national policy at the time of this Plan's examination, Neighbourhood Plans cannot allocate sites in the Green Belt or amend Green Belt boundaries

SA implications of changes:

This matrix is being reviewed as there have been a number of changes over two Modifications processes.

SA objective	SA Sub Objective: <i>will the policy or proposal help to...</i>	Predicted effect			Justification and recommendations for mitigation/improvement
		Short term	Med term	Long term	
ECONOMIC ACTIVITY					
1 Achieve sustainable levels of prosperity and economic growth	maintain a diversified economy, with increased resilience to external shocks?	0	0	0	No significant effect
	encourage new business to start-up and thrive in the District?	0	0	0	No significant effect
	support and encourage the rural economy and diversification?	✓	✓	✓	Policy permits development in villages, including general development in the larger villages. This should provide a larger customer base for rural businesses
	support and promote sustainable tourism in towns and rural areas?	0	0	0	No significant effect
	improve the quality of local jobs available to people in the District?	0	0	0	No significant effect
	increase the skills base?	0	0	0	No significant effect
	make the cost of housing more affordable to those employed in the District?	✓	✓	✓	Policy promotes new development, which should help to improve the affordability of housing
LAND USE AND DEVELOPMENT PATTERNS					

<u>2(a) Minimise the development of greenfield land and other land with high environmental and amenity value?</u>	promote the use of brownfield sites and if brownfield sites are not available, land of low environmental and amenity value?	X	X	X	The policy allows for new development within or adjoining the main towns and within the settlement boundaries. This will involve a significant level of greenfield land, including some with environmental and/or amenity value.
	maximise reuse of vacant buildings and derelict land?	0	0	0	No significant effect
	minimise the loss of the best and most versatile agricultural land?	X	X	X	The policy allows for new development within or adjoining the main towns and within the settlement boundaries. This will involve a significant level of greenfield land, including some with agricultural value
	reduce quantity of unremediated contaminated land?	0	0	0	No significant effect
<u>2(b) Provide access to green spaces</u>	provide/improve access for all residents of the District to green spaces?	?	X	X	Development adjoining existing residential areas may increase distance to green space or open countryside
	provide opportunities for people to come into contact with and appreciate wildlife and wild places?	?	X	X	As above
	maintain/improve the public right of way network?	0	0	0	No significant effect
<u>2 (c) Deliver more sustainable location patterns and reduce the use of motor vehicles</u>	locate development so as to reduce the need to travel?	?	✓	✓	Primary focus on main settlements should help to reduce the need to travel
	reduce car reliance, encourage walking, cycle, bus, and train use?	?	✓	✓	As above
	reduce road freight movements?	0	0	0	No significant effect
	avoid exacerbating local traffic congestion?	?	?	?	New development would inevitably lead to traffic growth. Precise effects uncertain
	provide affordable, accessible public transport in towns and in rural areas?	0	0	0	No significant effect
ENVIRONMENTAL PROTECTION					
<u>3(a) Protect and enhance biodiversity</u>	protect habitats and species, especially those designated as being of importance, and provide opportunities for creation of new habitats?	?	X	X	The policy allows for new development within or adjoining the main towns and within the settlement boundaries. This will involve a significant level of greenfield land, including some with biodiversity value. Precise impact will be dependent on layout of new

					developments in relation to the sensitive areas of the sites
	support and maintain extent of wetland habitat and river habitats?	0	0	0	No significant effect
<u>3(b) Protect and enhance landscapes</u>	protect and enhance landscapes, especially those of historic, recreational or amenity value, and within the Chilterns AONB?	?	X	X	The policy allows for new development within or adjoining the main towns and within the settlement boundaries. This will involve a significant level of greenfield land, including some with landscape value. Precise impact will be dependent on layout of new developments in relation to the more sensitive areas of the sites
<u>3(c) Conserve and where appropriate, enhance the historic environment</u>	conserve and enhance the historic built character of the District's town's and villages?	?	?	?	Impact dependent on precise location of development. Other policies seek to protect historic environment
	protect sites of archaeological and historic importance, whether designated or not?	?	?	?	Impact dependent on precise location of development. Other policies seek to protect historic environment
<u>3(d) Reduce pollution from any source</u>	improve the water quality of rivers and groundwater supplies?	?	X	X	New development will lead to increased light, air and noise pollution from traffic although the growth of traffic should be limited due to the location of the new housing in and around existing settlements. Pollution of groundwater is also an issue as the District is on a major chalk aquifer with high groundwater vulnerability.
	achieve good air quality?	?	X	X	
	reduce ambient noise, especially from traffic?	?	X	X	
	reduce light pollution in the District?	?	X	X	
	protect soil quality?	0	0	0	
CLIMATE CHANGE					
<u>4(a) Reduce greenhouse gas emissions</u>	minimise energy consumption by transport and in buildings?	0	0	0	No significant effect
	increase proportion of energy generated by renewable sources?	0	0	0	No significant effect
	encourage use of local suppliers and the consumption of local produce?	0	0	0	No significant effect
<u>4(b) Improve the District's ability to adapt to climate change</u>	reduce vulnerability to climate change, exploit any benefits?	0	0	0	No significant effect
	avoid development in areas at risk from flooding?	0	0	0	No significant effect
A JUST SOCIETY					
<u>5(a) Share benefits of prosperity fairly</u>	reduce disparities in income levels?	0	0	0	No significant effect

	contribute to regeneration of deprived areas (estates in Letchworth and Hitchin)?	?	✓	✓	The primary focus on existing towns may help to drive development in areas in need of regeneration
	provide employment and other opportunities for unemployed, especially long term unemployed and the disabled?	0	0	0	No significant effect
	encourage entrepreneurial activity in deprived areas?	0	0	0	No significant effect
5(b) Provide access to services and facilities for all	provide access to services and facilities without need to use a car?	?	✓	✓	The policy requires most development to be within or adjoining existing settlements, which should keep services and facilities as accessible as possible by non-car means
	retain rural services, especially shops, post offices, schools, health centres and bus services?	?	✓	✓	Promoting development within the larger villages supports this sub-objective
	recognise the needs of specific groups such as minority ethnic groups, the young, the elderly and the disabled?	0	0	0	No significant effect
5(c) Promote community cohesion	support development of voluntary sector?	0	0	0	No significant effect
	encourage development of community run business?	0	0	0	No significant effect
	encourage people's feelings of belonging, for example by providing community meeting places?	0	?	?	New meeting places could be provided within the strategic sites developments
	recognise and value cultural and ethnic diversity?	0	0	0	No significant effect
5(d) Increase access to decent and affordable housing	help improve the quality of the housing stock and reduce the number of unfit homes?	0	0	0	No significant effect
	increase access to affordable housing, particularly for the young, the disabled and key workers?	✓	✓	✓	The policy allows for housing development in settlements across N Herts, which should improve housing affordability, even in the short term
5(e) Reduce crime rates and fear of crime	encourage crime reduction, particularly through the appropriate design of	0	0	0	No significant effect

	new development?				
	help reduce the fear of crime?	0	0	0	No significant effect
<u>5(f) Improve conditions and services that engender good health and reduce health inequalities</u>	help promote healthy lifestyles?	0	0	0	No significant effect
	improve access to health services by means other than private cars?	0	0	0	No significant effect
	reduce ambient noise near residential and amenity areas?	X	X	X	Focusing development within or adjoining existing settlements will have noise impacts on neighbouring residential areas
	reduce road accidents?	0	0	0	No significant effect
	reduce accidents and damage from fires?	0	0	0	No significant effect
5(g) Increase participation in education and life-long learning	improve access to skills learning by young people?	0	0	0	No significant effect
	improve access to skills learning by adults?	0	0	0	No significant effect
5(h) Maintain and improve culture, leisure and recreational activities that are available to all	increase access to culture, leisure and recreational activities?	?	✓	✓	Will lead to an increase in the population of all major settlements, which could help to support and enhance culture, leisure and recreational facilities
RESOURCE USE AND WASTE					
<u>6(a) Use natural resources efficiently: reuse, use recycled where possible</u>	minimise the demand for raw materials?	0	0	0	No significant effect
	encourage sustainable design, use of sustainable building materials and minimise wastage caused by construction methods?	0	0	0	No significant effect
	limit water consumption to levels supportable by natural process and storage systems?	0	0	0	No significant effect
	protect groundwater resources?	0	0	0	No significant effect
	promote sustainable drainage systems?	0	0	0	No significant effect
	reduce minerals extracted and imported?	0	0	0	No significant effect
<u>6(b) Reduce waste</u>	reduce, reuse or recycle waste generated?	0	0	0	No significant effect
TOWN CENTRES					
7 Promote sustainable urban living	encourage wider range of shops and services in town centres?	?	✓	✓	Will lead to an increase in the population of the main towns, which could help to support shops and

					services in the town centres
	encourage more people to live in town centres?	?	✓	✓	Policy requires a focus on existing towns, which could lead to some development in town centres
	encourage mixed use developments in town centres?	0	0	0	No significant effect
	improve transport connections in, and to, town centres?	?	✓	✓	Promoting development in existing towns could help to support and enhance public transport
	encourage synergy in land uses, which supports the continued and enhanced viability of a wide range of shops and services?	?	✓	✓	Will lead to an increase in the population of the main towns, which could help to support shops and services in the town centres
	protect or improve the quality of the public realm in towns?	?	✓	✓	Public realm improvements could be secured as part of developments within the towns

Conclusion

The policy seeks to focus new development within or adjoining existing settlements, which will have a range of positive effects. Potential negative effects mainly stem from:

- The interaction with existing residential areas, e.g. noise impacts and increasing distance to green space.
- The fact that much development adjoining existing settlements will be on greenfield sites which may have agricultural, ecological or amenity value.

It will be possible to mitigate many of these impacts, particularly through design and layout considerations. No specific recommendations are made for changes to this policy as the issues will be best addressed through other plan policies.

Some short term effects (whether positive or negative) are uncertain, as they depend on the phasing of housing delivery on specific sites.

Policy SP3: Employment

The Council will proactively encourage sustainable economic growth, support new and existing businesses and seek to build on the District's strengths, location and offer. We will

- a. ~~Bring forward~~ **Allocate** an adequate supply and range of employment land in ~~Hitchin, Letchworth Garden City, Baldock and Royston~~ to meet the **needs of the Functional Economic Market Area** requirements of the local economy over the plan period to 2031.

The allocations as shown on the Policies Map are :

i. **east of Baldock BA10 (19.6ha); and**

ii. **west of Royston RY9 (10.9ha);**

- b. ~~Designate existing~~ **Safeguard** the Employment Areas within the District's main settlements, **as shown on the Policies Map**, to enhance and **protect their safeguard** employment potential **for office, research and development, industrial or storage and distribution uses;**

- c. ~~Support additional employment provision through the new designations~~ **allocations shown on the on the Policies Map designations at:**

- i. ~~the former Power Station, Letchworth Garden City (1.5ha);~~
- ii. ~~east of Baldock (19.6ha); and~~
- iii. ~~west of Royston RY9 (10.9ha);~~
- d. Work with landowners, developers and, for ~~allocated~~ sites on the edge of the District, adjoining authorities to identify an appropriate amount of employment land to be included through the masterplanning process in **strategic housing sites major new developments**;
- e. Permit an appropriate range of **offices, research and development, light industrial or B** class employment uses within these areas;
- f. Promote and support the expansion of the knowledge based economy in the District. Proposals for the redevelopment of existing employment sites and the development of new ~~allocated~~ employment sites which increase the level of knowledge-intensive employment will be supported in principle.
- g. Support **offices, research and development, light industrial and B-class** uses in appropriate locations outside of designated employment areas, including offices in main town centres and concentrations of **B-class these employment** uses in certain ~~Category A~~ villages; and

Ensure relevant policies of this Plan recognise the contribution of **sectors other than B Class uses and offices, research and development and light industrial uses, including tourism, to the provision of jobs.** ~~non-B class sectors, including tourism, to the provision of jobs in the District.~~

SA implications of changes

While these changes arise from changes to the Use Classes Order, they highlight the need to consider the effect of specific uses now clearly identified, in relation to SA Objective 2(c) regarding freight movements. There have also been changes to the employment sites provided for in the policy.

SA objective	SA Sub Objective: <i>will the policy or proposal help to...</i>	Predicted effect			Justification and recommendations for mitigation/ improvement
		Short term	Medium term	Long term	
ECONOMIC ACTIVITY					
1 Achieve sustainable levels of prosperity and economic growth	maintain a diversified economy, with increased resilience to external shocks?	?	✓	✓	The policy specifically promotes the knowledge based economy. It provides for a range of employment uses: offices, research and development, light industrial and B-class uses and promotes the value of other uses such as tourism.
	encourage new business to start-up and thrive in the District?	✓	✓	✓	The provision of a range of employment uses should support new businesses
	support and encourage the rural economy and diversification ?	✓	✓	✓	The policy supports concentrations of uses in certain villages

	support and promote sustainable tourism in towns and rural areas?	?	?	?	The policy explicitly recognises the contribution of tourism to employment. However, it is not clear what this would mean in practice.
	improve the quality of local jobs available to people in the District?	?	✓	✓	The emphasis on supporting the knowledge-based economy should be beneficial
	increase the skills base?	0	0	0	No significant effect
	make the cost of housing more affordable to those employed in the District?	0	0	0	No significant effect
LAND USE AND DEVELOPMENT PATTERNS					
<u>2(a)</u> <u>Minimise the development of greenfield land and other land with high environmental and amenity value?</u>	promote the use of brownfield sites and if brownfield sites are not available, land of low environmental and amenity value?	X	?	?	One of the sites designated is brownfield (BA10) while the other (RY9) is greenfield. RY9 is likely to be developed in the short-term, while the brownfield site will be developed later.
	maximise reuse of vacant buildings and derelict land?	X	X	X	One of the sites is greenfield
	minimise the loss of the best and most versatile agricultural land?	X	X	X	RY9 is grade 3 agricultural land
	reduce quantity of unremediated contaminated land?	0	0	0	No significant effect
<u>2(b)</u> <u>Provide access to green spaces</u>	provide/improve access for all residents of the District to green spaces?	X	X	X	RY9 in particular may impact on local residents access to green space
	provide opportunities for people to come into contact with	0	0	0	No significant effect

	and appreciate wildlife and wild places?				
	maintain/improve the public right of way network?	?	?	?	Right of way through RY9 may be impacted by the development of this site but it could be retained
<u>2 (c)</u> <u>Deliver more sustainable location patterns and reduce the use of motor vehicles</u>	locate development so as to reduce the need to travel?	✓	✓	✓	The new employment designations are reasonably well located in relation to existing settlements and the policy also seeks to secure new employment land through the masterplanning process for major developments. If this were further supported by sustainable travel measures (address in transport policies) there could be a positive effect in terms of the pattern of commuting for work. Provision of employment sites in the District should also reduce out-commuting.
	reduce car reliance, encourage walking, cycle, bus, and train use?	?	?	?	The effect is uncertain. The provision of BA10 is likely to have a positive effect, but RY9 is likely to have a negative effect. For BA10: <ul style="list-style-type: none"> rain station within 800m of the western section of the site. bus stop within 400m of site, but not with a regular service however, it is well located with other housing developments in Baldock, which is likely to improve public transport access. And for RY9: <ul style="list-style-type: none"> within 400m of a bus stop, but not with a regular service very small area along the boundary of the site is just within 800m of train station as the crow flies, but substantially more than this via a walking route. The vast majority of the site is not within 800m of the station.
	reduce road freight movements?	x	x	x	The provision of the new sites is likely to increase road freight movements.
	avoid exacerbating local traffic congestion?	?	?	?	As above

	provide affordable, accessible public transport in towns and in rural areas?	0	0	0	No significant effect
ENVIRONMENTAL PROTECTION					
<u>3(a)</u> <u>Protect and enhance biodiversity</u>	protect habitats and species, especially those designated as being of importance, and provide opportunities for creation of new habitats?	?	?	?	The site appraisal for RY9 identified potential ecological interest on this site
	support and maintain extent of wetland habitat and river habitats?	0	0	0	No significant effect
<u>3(b)</u> <u>Protect and enhance landscapes</u>	protect and enhance landscapes, especially those of historic, recreational or amenity value, and within the Chilterns AONB?	0	0	0	No significant effect
<u>3(c)</u> <u>Conserve and where appropriate, enhance the historic environment</u>	conserve and enhance the historic built character of the District's town's and villages?	0	0	0	No significant effect
	protect sites of archaeological and historic importance, whether designated or not?	?	X	X	BA10 includes a designated area of archaeological interest. For RY9 there is a possible impact on views to and from the Scheduled Ancient Monuments located on Therfield Heath.
<u>3(d)</u> <u>Reduce pollution from any source</u>	improve the water quality of rivers and groundwater supplies?	0	0	0	No significant effect

	achieve good air quality?	0	0	0	No significant effect
	reduce ambient noise, especially from traffic?	?	?	0	BA10 is close to a residential area which could be impacted by traffic and other noise arising from development on this site
	reduce light pollution in the District?	0	0	0	No significant effect
	protect soil quality?	0	0	0	No significant effect
CLIMATE CHANGE					
<u>4(a)</u> <u>Reduce greenhouse gas emissions</u>	minimise energy consumption by transport and in buildings?	?	?	?	Development will invariably mean increases in CO ² emissions. However, if this policy can help mitigate the projected increases in net out-commuting, it could have a positive impact overall.
	increase proportion of energy generated by renewable sources?	0	0	0	No significant effect
	encourage use of local suppliers and the consumption of local produce?	0	0	0	No significant effect
<u>4(b)</u> <u>Improve the District's ability to adapt to climate change</u>	reduce vulnerability to climate change, exploit any benefits?	0	0	0	No significant effect
	avoid development in areas at risk from flooding?	X	X	X	Both designated new sites are impacted by surface water flood risk
A JUST SOCIETY					
5(a) Share benefits of prosperity fairly	reduce disparities in income levels?	0	0	0	Not directly addressed by the policy
	contribute to regeneration of deprived areas (estates in Letchworth and Hitchin)?	0	0	0	No significant effect
	provide employment and other opportunities for	✓	✓	✓	Policy seeks to support economic growth and job creation

	unemployed, especially long term unemployed and the disabled?				
	encourage entrepreneurial activity in deprived areas?	?	?	?	Through providing employment uses, the policy could support entrepreneurial activity but whether this would benefit deprived areas would depend on site locations
5(b) Provide access to services and facilities for all	provide access to services and facilities without need to use a car?	✓	✓	✓	The new employment designations are reasonably well located in relation to existing settlements and the policy also seeks to secure new employment land through the masterplanning process for major developments. If this were further supported by sustainable travel measures (addressed in transport policies) they could be accessible by no-car means.
	retain rural services, especially shops, post offices, schools, health centres and bus services?	0	0	0	Not directly addressed by the policy
	recognise the needs of specific groups such as minority ethnic groups, the young, the elderly and the disabled?	0	0	0	Not directly addressed by the policy
5(c) Promote community cohesion	support development of voluntary sector?	0	0	0	Not directly addressed by the policy
	encourage development of community run business?	?	✓	✓	Providing new employment sites could help to support this sub-objective
	encourage people's feelings of belonging, for example by providing community meeting places?	0	0	0	Not directly addressed by the policy
	recognise and value cultural and ethnic diversity?	0	0	0	Not directly addressed by the policy

5(d) Increase access to decent and affordable housing	help improve the quality of the housing stock and reduce the number of unfit homes?	0	0	0	Not directly addressed by the policy
	increase access to affordable housing, particularly for the young, the disabled and key workers?	0	0	0	Not directly addressed by the policy
5(e) Reduce crime rates and fear of crime	encourage crime reduction, particularly through the appropriate design of new development ?	0	0	0	Not directly addressed by the policy
	help reduce the fear of crime?	0	0	0	Not directly addressed by the policy
<u>5(f)</u> <u>Improve conditions and services that engender good health and reduce health inequalities</u>	help promote healthy lifestyles?	0	0	0	Not directly addressed by the policy
	improve access to health services by means other than private cars?	0	0	0	Not directly addressed by the policy
	reduce ambient noise near residential and amenity areas?	?	X	X	BA10 is close to a residential area which could be impacted by traffic and other noise arising from development on this site and from ongoing uses.
	reduce road accidents?	0	0	0	Not directly addressed by the policy
	reduce accidents and damage from fires?	0	0	0	Not directly addressed by the policy
5(g) Increase participation in education and life-long learning	improve access to skills learning by young people?	0	0	0	Not directly addressed by the policy
	improve access to skills learning by adults?	0	0	0	Not directly addressed by the policy

5(h) Maintain and improve culture, leisure and recreational activities that are available to all	increase access to culture, leisure and recreational activities?	0	0	0	Not directly addressed by the policy
RESOURCE USE AND WASTE					
<u>6(a) Use natural resources efficiently: reuse, use recycled where possible</u>	minimise the demand for raw materials?	0	0	0	Not directly addressed by the policy
	encourage sustainable design, use of sustainable building materials and minimise wastage caused by construction methods?	0	0	0	Not directly addressed by the policy
	limit water consumption to levels supportable by natural process and storage systems?	X	X	X	All development, including that supported by this policy, will increase the pressure on the water supply infrastructure
	protect groundwater resources?	?	?	?	RY9 includes an area of Source Protection Zone 2.
	promote sustainable drainage systems?	0	0	0	Not directly addressed by the policy
	reduce minerals extracted and imported?	0	0	0	Not directly addressed by the policy
<u>6(b) Reduce waste</u>	reduce, reuse or recycle waste generated?	0	0	0	Not directly addressed by the policy
TOWN CENTRES					
7 Promote sustainable urban living	encourage wider range of shops and services in town centres?	?	?	?	Unlikely to have a positive effect. There is a potential for competition with town centre uses.
	encourage more people to live in town	0	0	0	Not directly addressed by the policy

	centres?				
	encourage mixed use developments in town centres?	0	0	0	Not directly addressed by the policy
	improve transport connections in, and to, town centres?	0	0	0	Not directly addressed by the policy
	encourage synergy in land uses, which supports the continued and enhanced viability of a wide range of shops and services?	0	0	0	Not directly addressed by the policy
	protect or improve the quality of the public realm in towns?	0	0	0	Not directly addressed by the policy
<p>Conclusion The policy provides strong support for employment growth and diversification in North Hertfordshire. The contribution of sectors other than B Class uses and offices, research and development and light industrial uses, including tourism is recognised. This has been strengthened as a result of a previous SA recommendation to ensure that it is carried through in other policies in the plan.</p>					

Policy SP8: Housing

Over the period 2011-2031, housing growth will be supported across the District. We will:

- a. Release sufficient land to deliver at least ~~14,000~~ **11,600 net** new homes for North Hertfordshire's own needs. Of these:
 - i. Around ~~13,800~~ **11,500 net new homes** will be provided within that part of the District falling within the Stevenage Housing Market Area (HMA); while
 - ii. Around ~~200~~ **100 net new homes** will be provided within that part of the District falling within the Luton HMA;
- b. Provide additional land within the Luton HMA for a further 1,950 **net new** homes as a contribution towards the unmet needs for housing arising from Luton **with approximately 1,400 of these being delivered over the Plan period to 2031**;
- c. Deliver these homes through the sites and allowances identified in this Plan that will support approximately⁴⁸:
 - i. ~~4,340~~ **5,100** homes from completions and permissions achieved since 2011 and other allowances;
 - ii. 7,700 homes from six Strategic Housing Sites **delivering approximately 5,560 of these by 2031**:
 - BA1 - North of Baldock for 2,800 homes (~~2,500~~ **approximately 1,400** to be delivered by 2031);
 - LG1 - North of Letchworth for 900 homes (**approximately 600 by 2031**);
 - NS1 - North of Stevenage in Graveley parish for 900 homes (**approximately 775 by 2031**);
 - HT1 - East of Hitchin for 700 homes;
 - GA2 - North-east of Great Ashby in Weston parish for 600 homes; and
 - EL1 / EL2 / EL3 - East of Luton for 2,100 homes (**approximately 1,500 by 2031**);

~~4,860~~ **4,000** homes through local housing allocations that will provide

- ~~newly identified sites and land within pre-existing settlement limits;~~
- ~~sites released from the Green Belt as part of a comprehensive, District-wide review; and~~
- ~~land identified following a review of other relevant boundaries or designations.~~
- **Further sites within the adjusted settlement boundaries of the towns;**
- **Land within the adjusted settlement boundaries of five villages where more than 200 homes are expected to be built over the Plan period; and**
- **Sites identified within the defined settlement boundaries of the Category A villages.**

This includes the use of land within pre-existing settlement limits, non-strategic sites released from the Green Belt and other land identified following a review of other relevant boundaries

or designations.

- iii. ~~7~~**4** new, permanent Gypsy and Traveller pitches
- d. Maintain a five-year housing land supply and target the completion of 20% of new homes over the plan period on previously developed land;
- e. Seek to provide long-term certainty by
 - i. **Identifying Strategic Housing Sites that will continue delivery beyond the end of the Plan period in 2031;**
 - ii. Working with the Government and other relevant agencies to identify new settlement options within North Hertfordshire that can provide additional housing supply in the period after 2026; ~~and~~
 - iii. Safeguarding land to the west of the A1(M) at Stevenage, as shown on the ~~Proposals-Policies Map, for up to 3,100 dwellings to~~ **meet longer- term development needs** in the period beyond 2026 subject to a future review of this Plan; **and**
 - iv. **Undertaking a review of this Plan by the end of 2023.**
- f. Support a range of housing tenures, types and sizes measured against targets to provide:
 - i. 33% of all homes over the plan period as Affordable Housing for local needs with targets to deliver up to 40% Affordable Housing where viable;
 - ii. A broadly even split between smaller (1- and 2-bed) and larger (3+ bed) properties **subject to up-to-date-assessments of housing needs;** and
 - iii. ~~100~~**56** plots **on specified Strategic Housing Sites to help pro-actively address demand** for self-build development over the plan period; and
- g. Provide up to at least 350 bed spaces in suitable, supported accommodation to meet the needs of those who cannot live in their own home.

SA implications of changes: The overall level of housing growth proposed up to 2031 is lower but the effects of the Plan must be considered beyond that date since it allocates sites which involve provision beyond that date. Because of the high-level of nature of the SA of policies, such changes are unlikely to significantly impact on overall appraisal outcomes, particularly as it mirrors a reduction in the level of OAN. However, changes to the proposed timing of housing provision may, in turn, impact on the timing of SA outcomes so this needs to be checked.

SA objective	SA Sub Objective: <i>will the policy or proposal help to...</i>	Predicted effect			Justification and recommendations for mitigation/ improvement
		Short term	Med term	Long term	
ECONOMIC ACTIVITY					
1 Achieve sustainable levels of prosperity and economic growth	maintain a diversified economy, with increased resilience to external shocks?	✓	✓	✓	The policy's support for significant housing growth should increase local demand and spend and create jobs in construction and other development-related industry. The commitment to maintain a five-year housing supply and work to identify additional housing supply beyond 2026 should help to provide longer term stability.
	encourage new business to start-up and thrive in the District?	✓	✓	✓	
	support and encourage the rural economy and diversification?	✓	✓	✓	
	support and promote sustainable tourism in towns and rural areas?	0	0	0	No significant effect
	improve the quality of local jobs available to people in the District?	0	0	0	No significant effect

	increase the skills base?	0	0	0	No significant effect
	make the cost of housing more affordable to those employed in the District?	✓	✓	✓	Significant housing growth should ease house price pressures. The policy also includes a requirement for 33% of all homes over the Plan period to be Affordable Housing.
LAND USE AND DEVELOPMENT PATTERNS					
<u>2(a) Minimise the development of greenfield land and other land with high environmental and amenity value?</u>	promote the use of brownfield sites and if brownfield sites are not available, land of low environmental and amenity value?	✓	✓	✓	The policy targets the completion of 20% of new homes over the plan period on previously developed land.
	maximise reuse of vacant buildings and derelict land?	✓	✓	✓	The policy targets the completion of 20% of new homes over the plan period on previously developed land.
	minimise the loss of the best and most versatile agricultural land?	✓	X	X	Releasing green belt and other greenfield sites for housing development will result in the loss of some agricultural land
	reduce quantity of unremediated contaminated land?	✓	✓	✓	The policy targets the completion of 20% of new homes over the plan period on previously developed land, some of which will be contaminated.
<u>2(b) Provide access to green spaces</u>	<u>provide/improve access for all residents of the District to green spaces?</u>	?	X	X	Allowing development around towns and villages in the District may limit local accessibility to open countryside
	<u>provide opportunities for people to come into contact with and appreciate wildlife and wild places?</u>	?	X	X	Allowing development around towns and villages in the District may limit local accessibility to open countryside
	<u>maintain/improve the public right of way network?</u>	?	?	?	There are rights of way through some of the allocated sites but these could be retained as part of the development
<u>2 (c) Deliver more sustainable location patterns and reduce the use of motor vehicles</u>	<u>locate development so as to reduce the need to travel?</u>	?	?	?	Locating a significant level of new development on the edges of the District's towns and villages may be a sustainable approach but this will depend on the connections which are made between the new developments and the existing settlements
	<u>reduce car reliance, encourage walking, cycle, bus, and train use?</u>	?	?	?	Locating a significant level of new development on the edges of the District's towns and villages may be a sustainable approach but this will depend on the connections which are

					made between the new developments and the existing settlements
	<u>reduce road freight movements?</u>	0	0	0	No significant effect
	<u>avoid exacerbating local traffic congestion?</u>	?	?	?	See above. The level of housing growth will inevitably lead to increased traffic movements but the precise impact of this will be determined by associated transport provision
	<u>provide affordable, accessible public transport in towns and in rural areas?</u>	?	?	?	There may be some additional provision of public transport as a result of the strategic site development.
ENVIRONMENTAL PROTECTION					
<u>3(a) Protect and enhance biodiversity</u>	protect habitats and species, especially those designated as being of importance, and provide opportunities for creation of new habitats?	?	X	X	The policy will lead to greenfield development around towns and villages, on some sites which have biodiversity value. Impacts could be mitigated in some cases.
	support and maintain extent of wetland habitat and river habitats?	?	X	X	The policy will lead to greenfield development around towns and villages, on some sites which have watercourses through or adjoining them. These could be impacted by development although the impacts could be mitigated in most cases.
<u>3(b) Protect and enhance landscapes</u>	protect and enhance landscapes, especially those of historic, recreational or amenity value, and within the Chilterns AONB?	?	X	X	The policy will lead to greenfield development around towns and villages, on some sites which have landscape value. Impacts could be mitigated to some extent.
<u>3(c) Conserve and where appropriate, enhance the historic environment</u>	conserve and enhance the historic built character of the District's town's and villages?	?	X	X	The policy will lead to development which will impact, in some cases, on the setting of heritage assets. Impacts could be mitigated to some extent.
	protect sites of archaeological and historic importance, whether designated or not?	?	X	X	The policy will lead to development which will impact, in some cases, on sites of archaeological importance. Impacts could be mitigated to some extent.
<u>3(d) Reduce pollution from any source</u>	improve the water quality of rivers and groundwater supplies?	?	X	X	New development will lead to increased light, air and noise pollution. Noise pollution may be a particular issue for residents adjoining new development sites. Pollution of rivers and groundwater are also risks which need to be addressed.
	achieve good air quality?	?	X	X	
	reduce ambient noise, especially from traffic?	X	X	X	

	reduce light pollution in the District?	X	X	X	
	protect soil quality?	?	X	X	
CLIMATE CHANGE					
<u>4(a) Reduce greenhouse gas emissions</u>	minimise energy consumption by transport and in buildings?	X	X	X	The policy provides for significant housing growth, which will lead to increases in energy consumption. Impacts from transport could be limited by focusing on creating and enhancing links between new development and existing services and facilities.
	increase proportion of energy generated by renewable sources?	0	0	0	There may be opportunities for building-integrated and stand-alone renewables as part of new housing development but this is not promoted by this policy per se
	encourage use of local suppliers and the consumption of local produce?	0	0	0	No significant effect
<u>4(b) Improve the District's ability to adapt to climate change</u>	reduce vulnerability to climate change, exploit any benefits?	0	0	0	Some of the sites identified in this policy face surface water flood risk, but it should be possible to mitigate this risk to some extent
	avoid development in areas at risk from flooding?	✓	✓	✓	Sites in flood zones 2 and 3 have been avoided
A JUST SOCIETY					
5(a) Share benefits of prosperity fairly	reduce disparities in income levels?	0	0	0	No significant effect
	contribute to regeneration of deprived areas (estates in Letchworth and Hitchin)?	0	0	0	No significant effect
	provide employment and other opportunities for unemployed, especially long term unemployed and the disabled?	✓	✓	✓	The policy's support for significant housing growth should increase local demand and spend and create jobs in construction and other development-related industry.
	encourage entrepreneurial activity in deprived areas?	0	0	0	No significant effect
5(b) Provide access to services and facilities for all	provide access to services and facilities without need to use a car?	0	0	0	No significant effect
	retain rural services, especially shops, post offices, schools, health centres and	?	✓	✓	Enabling local development around some of the villages should help to retain rural services

	bus services?				
	recognise the needs of specific groups such as minority ethnic groups, the young, the elderly and the disabled?	?	✓	✓	The policy makes specific provision for Gypsies and Travellers and also makes provision for supported accommodation for those who cannot live in their own home.
5(c) Promote community cohesion	support development of voluntary sector?	0	0	0	No significant effect
	encourage development of community run business?	0	0	0	No significant effect
	encourage people's feelings of belonging, for example by providing community meeting places?	0	0	0	No significant effect
	recognise and value cultural and ethnic diversity?	0	0	0	No significant effect
5(d) Increase access to decent and affordable housing	help improve the quality of the housing stock and reduce the number of unfit homes?	0	0	0	No significant effect
	increase access to affordable housing, particularly for the young, the disabled and key workers?	✓	✓	✓	The policy includes a requirement for 33% of all homes over the Plan period to be Affordable Housing.
5(e) Reduce crime rates and fear of crime	encourage crime reduction, particularly through the appropriate design of new development?	0	0	0	No significant effect
	help reduce the fear of crime?	0	0	0	No significant effect
<u>5(f) Improve conditions and services that engender good health and reduce health inequalities</u>	help promote healthy lifestyles?	0	0	0	No significant effect
	improve access to health services by means other than private cars?	0	0	0	No significant effect
	reduce ambient noise near residential and amenity areas?	X	X	X	Much of the development supported by this policy adjoins existing residential areas. There will be noise and amenity impacts on these areas
	reduce road accidents?	0	0	0	No significant effect
	reduce accidents and damage from fires?	0	0	0	No significant effect
5(g) Increase participation in education and	improve access to skills learning by young people?	0	0	0	No significant effect

life-long learning	improve access to skills learning by adults?	0	0	0	No significant effect
5(h) Maintain and improve culture, leisure and recreational activities that are available to all	increase access to culture, leisure and recreational activities?	0	0	0	No significant effect
RESOURCE USE AND WASTE					
<u>6(a) Use natural resources efficiently; reuse, use recycled where possible</u>	minimise the demand for raw materials?	X	X	X	The policy supports significant housing growth which will increase demand for raw materials
	encourage sustainable design, use of sustainable building materials and minimise wastage caused by construction methods?	0	0	0	No significant effect
	limit water consumption to levels supportable by natural process and storage systems?	X	X	X	The policy supports significant housing growth which will increase demand for water
	protect groundwater resources?	X	X	X	The policy supports significant housing growth which presents risk to groundwater
	promote sustainable drainage systems?	0	0	0	No significant effect
	reduce minerals extracted and imported?	X	X	X	The policy supports significant housing and employment growth which will increase demand for minerals
<u>6(b) Reduce waste</u>	reduce, reuse or recycle waste generated?	0	0	0	No significant effect
TOWN CENTRES					
7 Promote sustainable urban living	encourage wider range of shops and services in town centres?	?	?	?	This will depend on the extent to which linkages can be created and enhanced between new development and existing centres
	encourage more people to live in town centres?	0	0	0	No significant effect
	encourage mixed use developments in town centres?	0	0	0	No significant effect
	improve transport connections in, and to, town centres?	0	0	0	No significant effect
	encourage synergy in land uses, which supports the continued and enhanced viability of	0	0	0	No significant effect

	a wide range of shops and services?				
	protect or improve the quality of the public realm in towns?	0	0	0	No significant effect
<p>Conclusion</p> <p>The policy provides clarity about the scale and location of housing which will be delivered in the District up to 2031. It stipulates that 33% of the new homes will be Affordable Housing and the policy also makes provision for groups with specific needs, including Gypsies and Travellers and those requiring supported accommodation. The changes in the policy to support higher housing delivery rates will help address identified housing need. As well as securing long-term housing supply, the policy should help to support economic growth in the District through increasing local demand and spend and creating jobs in construction and other development-related industry.</p> <p>The Strategic Housing Land Availability Assessment made it clear that housing targets cannot be achieved without the use of greenfield sites. Mitigation of the negative environmental effects of this needs to be addressed in other policies in the plan. The policy seeks to maximise the use of previously developed land through setting a target of 20% of new homes being completed on such land over the plan period. The reason for this target has been included in the supporting text, as a result of an earlier SA comment.</p> <p>Some short term effects (whether positive or negative) are uncertain, as they depend on the phasing of housing delivery on specific sites.</p>					

Policy SP9: Design and sustainability

The Council considers good design to be a key aspect of sustainable development. We will

- a. Support new development where it is well designed and located and responds positively to its local context;

x. Require Strategic Masterplans to be produced for Strategic Housing Sites and other significant development by the landowner/applicant in collaboration with the Council and subject to consultation with key stakeholders and the community.

Significant development generally comprises residential developments above 100 dwellings. Exceptionally, developments under 100 dwellings will be considered significant if there are site specific complexities and sensitivities that require a masterplan-led approach. In some circumstances a Strategic Masterplan may also be required to consider the cumulative impact of more than one site to support a co-ordinated and integrated approach to place-making and design.

- b. Require **Strategic Masterplans and planning applications** for **Strategic Housing Sites and significant developments to (as applicable):**

- i. Create buildings, spaces and streets which positively reflect and respond to the local landscape, townscape and historic character;**

- ii. Create integrated, accessible and sustainable transport systems with walking, cycling and public transport designed to be the most attractive forms of transport and effectively linking into the surrounding areas;**

- iii. Provide a clear structure and hierarchy of pedestrian friendly streets and well-connected footpaths and cycle ways integrated with the wider built and natural environment and communities;
 - iv. Plan for integrated and mixed-use communities with walkable locally accessible community, employment and retail facilities;
 - v. Positively integrate with adjacent rural and urban communities and positively contribute to their character and the way the area functions, including addressing cumulative, cross boundary planning and infrastructure matters;
 - vi. Provide a diverse and distinctive range of flexible and adaptable house types, tenures and building forms to meet the differing needs of the population;
 - vii. Create an accessible multi-functional green infrastructure network that provides:
 - a key structuring and functional placemaking feature supporting healthy lifestyles, sport, play and recreation, linking into the wider Green Infrastructure Network; and
 - a high quality, integrated network to support ecological connectivity, biodiversity net gain, climate change mitigation and adaptation and linking into the wider Ecological Network;
 - viii. Ensure the effective use of sustainable urban drainage and sustainable water management;
 - ix. Ensure a hierarchy of linked, high quality and attractive public spaces and public realm that is safe, attractive and supports social interaction for all age groups; and
 - x. Design to last with clear stewardship, management and maintenance plans
- x. Ensure Strategic Masterplans are informed by a technical and design evidence base and include the following for Strategic Housing Sites and where applicable for other significant development:
- i. Site specific vision and placemaking principles
 - ii. Masterplan setting out the quantum, scale, type, mix and distribution of land uses, housing and community facilities
 - iii. Green Infrastructure Framework identifying the scale, distribution, type and design of green spaces, biodiversity net gain, strategic drainage, on and off-site linkages
 - iv. Movement Framework setting out the key access points, strategic highways, street hierarchy and footways and cycleways (on and off site)
 - v. Urban Design Framework and design principles identifying how the site responds to local character and context and key structuring elements and layout principles (including heights and densities)
 - vi. Sustainability & Energy Framework identifying site wide and building scale opportunities for low and zero carbon

vii. Illustrative Masterplan Layout

viii. Infrastructure Delivery, Phasing & Management Strategy

x. Confirm the scope and contents of individual Strategic Masterplans with applicants in pre-application discussions. To ensure sites are comprehensively planned and delivered planning applications should be preceded by and consistent with a Strategic Masterplan agreed by the Council. Where applications have already been submitted to the Council a Strategic Masterplan should be agreed with the Council prior to or as part of the grant of planning permission. Adherence to the Strategic Masterplan will be secured through planning conditions and/or legal agreement.

- c. Assess proposals against detailed policy requirements set out in this Plan and **have regard to** the Design SPD; and

Adopt the Government’s **additional** technical standards for the size of new homes, water efficiency and, in specified circumstances, accessibility.

SA implications of changes

The changes represent a significant extension of the scope of the policy, with many of the additional criteria relating directly to SA criteria.

SA objective	SA Sub Objective: <i>will the policy or proposal help to...</i>	Predicted effect			Justification and recommendations for mitigation/ improvement
		Short term	Med term	Long term	
ECONOMIC ACTIVITY					
1 Achieve sustainable levels of prosperity and economic growth	maintain a diversified economy, with increased resilience to external shocks?	0	0	0	No significant effect
	encourage new business to start-up and thrive in the District?	0	✓	✓	The policy should help to protect and enhance local environments, which in the medium-long term may contribute to maintaining the attractiveness of the District to new business and investment
	support and encourage the rural economy and diversification?	0	✓	✓	
	support and promote sustainable tourism in towns and rural areas?	0	✓	✓	
	improve the quality of local jobs available to people in the District?	0	0	0	No significant effect
	increase the skills base?	0	0	0	No significant effect
	make the cost of housing more affordable to those employed in the District?	?	?	?	Requiring the Government’s technical standards for the size of new homes and water efficiency may impact on the viability of delivering high levels of affordable housing
LAND USE AND DEVELOPMENT PATTERNS					

<u>2(a) Minimise the development of greenfield land and other land with high environmental and amenity value?</u>	promote the use of brownfield sites and if brownfield sites are not available, land of low environmental and amenity value?	0	0	0	No significant effect
	maximise reuse of vacant buildings and derelict land?	0	0	0	No significant effect, although there is brief reference to the reuse of buildings in the Design SPD
	minimise the loss of the best and most versatile agricultural land?	0	0	0	No significant effect
	reduce quantity of unremediated contaminated land?	0	0	0	No significant effect
<u>2(b) Provide access to green spaces</u>	provide/improve access for all residents of the District to green spaces?	?	✓	✓	Includes requirements to create green infrastructure . Guidance on the provision of open space is included in the Design SPD
	provide opportunities for people to come into contact with and appreciate wildlife and wild places?	?	✓	✓	Includes requirements to create green infrastructure . Guidance on the provision of open space is included in the Design SPD
	maintain/improve the public right of way network?	?	✓	✓	Includes specific requirements to provide for footpaths and cycleways. Guidance on ease of movement (including walking and cycling routes) is included in the Design SPD
<u>2 (c) Deliver more sustainable location patterns and reduce the use of motor vehicles</u>	locate development so as to reduce the need to travel?	✓	✓	✓	The policy requires development to be both well designed and well located
	reduce car reliance, encourage walking, cycle, bus, and train use?	?	✓	✓	Includes specific requirements on supporting walking, cycling and public transport. Guidance on ease of movement (including walking and cycling routes) is included in the Design SPD
	reduce road freight movements?	0	0	0	No significant effect
	avoid exacerbating local traffic congestion?	?	✓	✓	Includes specific requirements on supporting walking, cycling and public transport. Guidance on ease of movement (including walking and cycling routes) is included in the Design SPD
	provide affordable, accessible public transport in towns and in rural areas?	?	✓	✓	Includes specific requirements on supporting walking, cycling and public transport.
ENVIRONMENTAL PROTECTION					

<u>3(a) Protect and enhance biodiversity</u>	protect habitats and species, especially those designated as being of importance, and provide opportunities for creation of new habitats?	?	✓	✓	Includes requirements to create green infrastructure and achieve biodiversity net gain. The Design SPD refers to the potential biodiversity benefits of open space planning
	support and maintain extent of wetland habitat and river habitats?	?	?	?	The requirements to create green infrastructure and achieve biodiversity net gain may contribute to this objective.
<u>3(b) Protect and enhance landscapes</u>	protect and enhance landscapes, especially those of historic, recreational or amenity value, and within the Chilterns AONB?	?	✓	✓	Policy requires development to respond positively to its local context, including landscape and townscape. Further guidance, including town/village-specific guidance is included in the Design SPD
<u>3(c) Conserve and where appropriate, enhance the historic environment</u>	conserve and enhance the historic built character of the District's towns and villages?	?	✓	✓	Policy requires development to respond positively to its local context, including historic character. Further guidance, including town/village-specific guidance is included in the Design SPD
	protect sites of archaeological and historic importance, whether designated or not?	0	0	0	No significant effect
<u>3(d) Reduce pollution from any source</u>	improve the water quality of rivers and groundwater supplies?	?	?	?	The requirements to create green infrastructure and achieve biodiversity net gain may contribute to this objective.
	achieve good air quality?	0	0	0	No significant effect
	reduce ambient noise, especially from traffic?	0	0	0	No significant effect
	reduce light pollution in the District?	0	0	0	No significant effect
	protect soil quality?	0	0	0	No significant effect
CLIMATE CHANGE					
<u>4(a) Reduce greenhouse gas emissions</u>	minimise energy consumption by transport and in buildings?	?	✓	✓	The Masterplans for strategic sites are required to identify opportunities for low and zero carbon. Design SPD includes guidance on energy and energy efficiency
	increase proportion of energy generated by renewable sources?	?	✓	✓	As above. The Design SPD includes guidance on renewable energy technologies
	encourage use of local suppliers and the consumption of local produce?	0	0	0	No significant effect, although there is brief reference in the Design SPD to the use of locally sourced building

					materials
<u>4(b) Improve the District's ability to adapt to climate change</u>	reduce vulnerability to climate change, exploit any benefits?	?	✓	✓	Masterplans and planning applications for significant development are required to create a green infrastructure network that supports climate change mitigation and adaptation and to ensure effective use of SuDs and sustainable water management
	avoid development in areas at risk from flooding?	0	0	0	No significant effect
A JUST SOCIETY					
5(a) Share benefits of prosperity fairly	reduce disparities in income levels?	0	0	0	No significant effect
	contribute to regeneration of deprived areas (estates in Letchworth and Hitchin)?	?	?	?	The expectation for masterplans and planning applications for significant development to positively integrate with adjacent urban communities may have a positive effect.
	provide employment and other opportunities for unemployed, especially long term unemployed and the disabled?	0	0	0	No significant effect
	encourage entrepreneurial activity in deprived areas?	0	0	0	No significant effect
5(b) Provide access to services and facilities for all	provide access to services and facilities without need to use a car?	✓	✓	✓	Masterplans and planning applications for significant development are required to provide walkable locally accessible facilities Guidance on ease of movement (including walking and cycling routes) is included in the Design SPD
	retain rural services, especially shops, post offices, schools, health centres and bus services?	?	?	?	The expectation for masterplans and planning applications for significant development to positively integrate with adjacent rural communities may have a positive effect.
	recognise the needs of specific groups such as minority ethnic groups, the young, the elderly and the disabled?	✓	✓	✓	Policy will require Government's technical standards for accessibility in specified circumstances.

5(c) Promote community cohesion	support development of voluntary sector?	0	0	0	No significant effect
	encourage development of community run business?	0	0	0	No significant effect
	encourage people's feelings of belonging, for example by providing community meeting places?	?	?	?	Expecting masterplans and planning applications for significant development to ensure high quality public spaces and public realm that is safe, attractive and supports social interaction for all age groups may have a positive effect.
	recognise and value cultural and ethnic diversity?	0	0	0	No significant effect
5(d) Increase access to decent and affordable housing	help improve the quality of the housing stock and reduce the number of unfit homes?	✓	✓	✓	The policy requires well designed new homes which must meet the Government's technical standards for the size of new homes.
	increase access to affordable housing, particularly for the young, the disabled and key workers?	?	✓	✓	Masterplans and planning applications for significant development are required to provide house types, tenures and building forms to meet the differing needs of the population
5(e) Reduce crime rates and fear of crime	encourage crime reduction, particularly through the appropriate design of new development?	?	✓	✓	Masterplans and planning applications for significant development are required to ensure high quality public spaces and public realm that is safe, attractive and supports social interaction for all age groups
	help reduce the fear of crime?	?	?	?	See above – may help reduce the fear of crime
<u>5(f) Improve conditions and services that engender good health and reduce health inequalities</u>	help promote healthy lifestyles?	✓	✓	✓	Expecting masterplans and planning applications for significant development to create a green infrastructure network that supports healthy lifestyles, sport, play and recreation should contribute this objective.
	improve access to health services by means other than private cars?	✓	✓	✓	Expecting masterplans and planning applications for significant development to provide walkable locally accessible facilities should contribute to this objective
	reduce ambient noise near residential and amenity areas?	0	0	0	No significant effect
	reduce road accidents?	0	0	0	No significant effect

	reduce accidents and damage from fires?	0	0	0	No significant effect
5(g) Increase participation in education and life-long learning	improve access to skills learning by young people?	0	0	0	No significant effect
	improve access to skills learning by adults?	0	0	0	No significant effect
5(h) Maintain and improve culture, leisure and recreational activities that are available to all	increase access to culture, leisure and recreational activities?	?	✓	✓	Expecting masterplans and planning applications for significant development to create a green infrastructure network that supports healthy lifestyles, sport, play and recreation should contribute this objective.
RESOURCE USE AND WASTE					
<u>6(a) Use natural resources efficiently; reuse, use recycled where possible</u>	minimise the demand for raw materials?	✓	✓	✓	The Design SPD includes guidance on the sustainable use of materials
	encourage sustainable design, use of sustainable building materials and minimise wastage caused by construction methods?	✓	✓	✓	The Design SPD addresses each of these issues
	limit water consumption to levels supportable by natural process and storage systems?	✓	✓	✓	Policy requires Government technical standards for water efficiency
	protect groundwater resources?	0	0	0	No significant effect
	promote sustainable drainage systems?	✓	✓	✓	Masterplans and planning applications for significant development are required to ensure effective use of SuDs and sustainable water management
	reduce minerals extracted and imported?	✓	✓	✓	Design SPD addresses the sustainable use of materials
<u>6(b) Reduce waste</u>	reduce, reuse or recycle waste generated?	✓	✓	✓	Design SPD addresses waste management
TOWN CENTRES					
7 Promote sustainable urban living	encourage wider range of shops and services in town centres?	0	0	0	No significant effect
	encourage more people to live in town centres?	0	0	0	No significant effect
	encourage mixed use developments in town centres?	0	0	0	No significant effect
	improve transport connections in, and to,	0	0	0	No significant effect

	town centres?				
	encourage synergy in land uses, which supports the continued and enhanced viability of a wide range of shops and services?	✓	✓	✓	Expecting masterplans and planning applications for significant development to positively integrate with adjacent rural and urban communities should have a positive effect on this objective
	protect or improve the quality of the public realm in towns?	?	✓	✓	Design SPD includes guidance on the quality of the public realm

Conclusion

This policy has been significantly strengthened from a sustainability perspective, and positively contributes to a large number of the SA Framework objectives. This is to be welcomed given the scale of new development proposed by the Plan. It includes adopting the Government's technical standards for water efficiency and this responds to one of the key sustainability issues identified by the sustainability appraisal. The changes address issues identified in an earlier version of the SA, including the importance of good design in crime reduction and community safety; and climate change mitigation issues.

Policy NEx: Biodiversity and geological sites

Planning permission will only be granted for development proposals that **appropriately** protect, enhance and manage **biodiversity** in accordance with the hierarchy **and status** of designations **and features** listed in policy SP12. **All development should deliver measurable net gains for biodiversity and geodiversity, contribute to ecological networks and the water environment, and/or restore degraded or isolated habitats where possible.**

Applicants should, having regard to the status of any affected site(s) or feature(s):

- a. submit an ecological survey that is commensurate to the scale and location of the development and the likely impact on biodiversity, the legal protection or other status of the site;
- b. demonstrate that adverse effects can be avoided and / or satisfactorily minimised having regard to the hierarchy of protection below:
 - i. locating on an alternative site with a less harmful impact;
 - ii. providing adequate mitigation measures; or
 - iii. as a last resort compensated for.

The acceptability of approach(es) to avoidance, mitigation and compensation will be commensurate with the status of the asset(s) likely to be affected by the application; Compensation is unlikely to be an appropriate solution for proposals affecting nationally or internationally designated sites other than in the most exceptional circumstances.

- c. **Include appropriate measures to manage construction impacts by demonstrating how existing wildlife habitats supporting protected or priority species will be retained, safeguarded and managed during construction;**
- d. **Integrate appropriate buffers of complimentary habitat for designated sites and other connective features, wildlife habitats, priority habitats and species into the ecological mitigation and design. The appropriateness of any buffers will be considered having regard to the status of the relevant habitat. 12 metres of complimentary habitat should be provided around wildlife sites (locally designated sites and above), trees and hedgerows^y. It may be necessary to exceed this distance for fragile habitats such as ancient woodland or to provide appropriate root protection for mature trees; and**
- e. provide a long-term management **and monitoring** plan including mitigation measures as necessary.

Local Geological Sites are ratified by the Herts & Middlesex Wildlife Trust (HMWT) and are afforded the same protection as Local Wildlife Sites.

SA implication of changes

Although the changes made generally strengthen the policy requirements, this policy is being reappraised as it has gone through a number of iterations.

SA objective	Predicted effect			Justification and recommendations for mitigation/improvement
	Short term	Med term	Long term	
ECONOMIC ACTIVITY				
1 Achieve sustainable levels of prosperity and economic growth	0	0	0	The policy focuses protection on sites of biodiversity and geodiversity importance and is therefore unlikely to prove too restrictive in

				terms of economic development.
LAND USE AND DEVELOPMENT PATTERNS				
2(a) Minimise the development of greenfield land and other land with high environmental and amenity value?	√	√	√	The policy will afford protection to Greenfield and other land of high environmental and amenity value including designated sites and ,other sites with important habitats and species.
2(b) Provide access to green spaces	√	√	√	The policy will afford protection to green spaces.
2 (c) Deliver more sustainable location patterns and reduce the use of motor vehicles	0	0	0	No significant impact
ENVIRONMENTAL PROTECTION				
3(a) Protect and enhance biodiversity	√	√	√	The policy seeks to protect and enhance biodiversity on designated sites. Importantly the revised policy includes protection for non-designated sites with important habitats and species..
3(b) Protect and enhance landscapes	√	√	√	There are likely to be indirect benefits to landscapes from the protection of sites designated for biodiversity.
3(c) Conserve and where appropriate, enhance the historic environment	0	0	0	No significant impact.
3(d) Reduce pollution from any source	0	0	0	No significant impact.
CLIMATE CHANGE				
4(a) Reduce greenhouse gas emissions	0	0	0	No significant impact.
4(b) Improve the District's ability to adapt to climate change	0	0	0	No significant impact.
A JUST SOCIETY				
5(a) Share benefits of prosperity fairly	0	0	0	No significant impact.
5(b) Provide access to services and facilities for all	0	0	0	No significant impact.
5(c) Promote community cohesion	0	0	0	No significant impact.
5(d) Increase access to decent and affordable housing	0	0	0	While there may be some restriction on developing sites for housing, the impact is not likely to be significant.
5(e) Reduce crime rates and fear of crime	0	0	0	No significant impact.
5(f) Improve conditions and services that engender good health and reduce health inequalities	0	0	0	No significant impact.
5(g) Increase participation in education and life-long learning	0	0	0	No significant impact.
5(h) Maintain and improve culture, leisure and recreational activities that are available to all	0	0	0	No significant impact.
RESOURCE USE AND WASTE				
6(a) Use natural resources efficiently; reuse, use	0	0	0	No significant impact.

recycled where possible				
6(b) Reduce waste	0	0	0	No significant impact.
TOWN CENTRES				
7 Promote sustainable urban living	0	0	0	No significant impact.
<p>Conclusions</p> <p>This growing pressure on locally significant species and habitats has been identified as a key sustainability issue for the District, which highlights the importance of this policy. The policy seeks to protect and enhance biodiversity on designated sites. In addition, as recommended by a previous iteration of the SA, it now provides protection for non-designated sites with important habitats and species.</p> <p>Uncertainties</p> <p>The policy will have financial implications for some developments but the extent of this is unclear.</p>				

Policy IMR1: Five Year Housing Land Supply

In order to identify and update annually a supply of specific deliverable sites sufficient to provide five years worth of housing, we will:

- a. Deliver the total housing requirement of **13,000** net dwellings over the plan period on a stepped basis. The Council's five year housing land supply will be measured against housing requirement targets of:
 - **350 dwellings per annum** for the plan period from 2011 to 31 March 2020;
 - **500 dwellings per annum for the plan period from 1 April 2020 to 31 March 2024; and**
 - **1,120 dwellings per annum for the remainder of the plan period from 1 April 2024 to 2031;**
- b. Add any shortfall in housing delivery since the plan's start date, spread evenly over the remaining plan period, to the calculation of the requirement;
- c. Ensure that the supply of specific, deliverable sites includes a buffer (moved forward from later in the plan period) in line with national planning policy; and
- d. Monitor housing completions and permissions on an ongoing basis to ensure the housing trajectory is based upon robust and up-to-date information and assumptions.

SA implications of changes:

The overall level of housing growth proposed up to 2031 is lower but the effects of the Plan must be considered beyond that date since it allocates sites which involve provision beyond that date. Because of the high-level of nature of the SA of policies, such changes are unlikely to significantly impact on overall appraisal outcomes, particularly as it mirrors a reduction in the level of OAN. However, changes to the proposed timing of housing provision may, in turn, impact on the timing of SA outcomes so this needs to be checked.

SA objective	SA Sub Objective: <i>will the policy or proposal help to...</i>	Predicted effect			Justification and recommendations for mitigation/ improvement
		Short term	Med term	Long term	
ECONOMIC ACTIVITY					
1 Achieve sustainable levels of prosperity and economic growth	maintain a diversified economy, with increased resilience to external shocks?	✓	✓	✓	The policy's support for significant housing growth should increase local demand and spend and create jobs in construction and other development-related industry. The commitment to maintain a five-year housing supply should help to provide longer term stability.
	encourage new business to start-up and thrive in the District?	✓	✓	✓	
	support and encourage the rural economy and diversification?	✓	✓	✓	
	support and promote sustainable tourism in towns and rural areas?	0	0	0	No significant effect
	improve the quality of local jobs available to people in the District?	0	0	0	No significant effect
	increase the skills base?	0	0	0	No significant effect
	make the cost of housing more affordable to those employed in the District?	✓	✓	✓	Significant housing growth should ease house price pressures. Other plan policy provisions include a requirement for 33% of all

					homes over the Plan period to be Affordable Housing.
LAND USE AND DEVELOPMENT PATTERNS					
<u>2(a) Minimise the development of greenfield land and other land with high environmental and amenity value?</u>	promote the use of brownfield sites and if brownfield sites are not available, land of low environmental and amenity value?	✓	✓	✓	Although not addressed by this policy, delivery of these housing requirements will require the use of brownfield sites and other policies target the completion of 20% of new homes over the plan period on previously developed land.
	maximise reuse of vacant buildings and derelict land?	✓	✓	✓	As above.
	minimise the loss of the best and most versatile agricultural land?	X	X	X	Delivery of this policy will involve releasing green belt and other greenfield sites for housing development which will result in the loss of some agricultural land
	reduce quantity of unremediated contaminated land?	✓	✓	✓	Although not addressed by this policy, delivery of these housing requirements will require the use of brownfield sites and other policies target the completion of 20% of new homes over the plan period on previously developed land, some of which will be contaminated.
<u>2(b) Provide access to green spaces</u>	<u>provide/improve access for all residents of the District to green spaces?</u>	?	X	X	Delivery of this policy will involve development around towns and villages in the District, which may limit local accessibility to open countryside
	<u>provide opportunities for people to come into contact with and appreciate wildlife and wild places?</u>	?	X	X	Delivery of this policy will involve development around towns and villages in the District, which may limit local accessibility to open countryside
	<u>maintain/improve the public right of way network?</u>	?	?	?	There are rights of way through some of the allocated sites but these could be retained as part of the development
<u>2 (c) Deliver more sustainable location patterns and reduce the use of motor vehicles</u>	<u>locate development so as to reduce the need to travel?</u>	?	?	?	Locating a significant level of new development on the edges of the District's towns and villages may be a sustainable approach but this will depend on the connections which are made between the new developments and the existing settlements
	<u>reduce car reliance, encourage walking, cycle, bus, and train</u>	?	?	?	Locating a significant level of new development on the edges of the District's towns

	<u>use?</u>				and villages may be a sustainable approach but this will depend on the connections which are made between the new developments and the existing settlements
	<u>reduce road freight movements?</u>	0	0	0	No significant effect
	<u>avoid exacerbating local traffic congestion?</u>	?	?	?	See above. The level of housing growth will inevitably lead to increased traffic movements but the precise impact of this will be determined by associated transport provision
	<u>provide affordable, accessible public transport in towns and in rural areas?</u>	0	0	0	No significant effect
ENVIRONMENTAL PROTECTION					
<u>3(a) Protect and enhance biodiversity</u>	protect habitats and species, especially those designated as being of importance, and provide opportunities for creation of new habitats?	?	X	X	The policy will lead to greenfield development around towns and villages, on some sites which have biodiversity value. Impacts could be mitigated in some cases.
	support and maintain extent of wetland habitat and river habitats?	?	X	X	The policy will lead to greenfield development around towns and villages, on some sites which have watercourses through or adjoining them. These could be impacted by development although the impacts could be mitigated in most cases.
<u>3(b) Protect and enhance landscapes</u>	protect and enhance landscapes, especially those of historic, recreational or amenity value, and within the Chilterns AONB?	?	X	X	The policy will lead to greenfield development around towns and villages, on some sites which have landscape value. Impacts could be mitigated to some extent.
<u>3(c) Conserve and where appropriate, enhance the historic environment</u>	conserve and enhance the historic built character of the District's town's and villages?	?	X	X	The policy will lead to development which will impact, in some cases, on the setting of heritage assets. Impacts could be mitigated to some extent.
	protect sites of archaeological and historic importance, whether designated or not?	?	X	X	The policy will lead to development which will impact, in some cases, on sites of archaeological importance. Impacts could be mitigated to some extent.
<u>3(d) Reduce pollution from any source</u>	improve the water quality of rivers and groundwater	?	X	X	New development will lead to increased light, air and noise pollution. Noise pollution may

	supplies?				be a particular issue for residents adjoining new development sites. Pollution of rivers and groundwater are also risks which need to be addressed.
	achieve good air quality?	?	X	X	
	reduce ambient noise, especially from traffic?	X	X	X	
	reduce light pollution in the District?	X	X	X	
	protect soil quality?	?	X	X	
CLIMATE CHANGE					
<u>4(a) Reduce greenhouse gas emissions</u>	minimise energy consumption by transport and in buildings?	X	X	X	The policy provides for significant housing growth, which will lead to increases in energy consumption. Impacts from transport could be limited by focusing on creating and enhancing links between new development and existing services and facilities.
	increase proportion of energy generated by renewable sources?	0	0	0	There may be opportunities for building-integrated and stand-alone renewables as part of new housing development but this is not promoted by this policy per se
	encourage use of local suppliers and the consumption of local produce?	0	0	0	No significant effect
<u>4(b) Improve the District's ability to adapt to climate change</u>	reduce vulnerability to climate change, exploit any benefits?	0	0	0	Some of the sites identified in in the Plan to deliver the requirements of this policy face surface water flood risk, but it should be possible to mitigate this risk to some extent
	avoid development in areas at risk from flooding?	✓	✓	✓	Sites in flood zones 2 and 3 have been avoided
A JUST SOCIETY					
5(a) Share benefits of prosperity fairly	reduce disparities in income levels?	0	0	0	No significant effect
	contribute to regeneration of deprived areas (estates in Letchworth and Hitchin)?	0	0	0	No significant effect
	provide employment and other opportunities for unemployed, especially long term unemployed and the disabled?	?	✓	✓	The policy's support for significant housing growth should increase local demand and spend and create jobs in construction and other development-related industry.
	encourage entrepreneurial activity in deprived areas?	0	0	0	No significant effect

5(b) Provide access to services and facilities for all	provide access to services and facilities without need to use a car?	0	0	0	No significant effect
	retain rural services, especially shops, post offices, schools, health centres and bus services?	?	✓	✓	Delivering this policy will involve local development around some of the villages, which should help to retain rural services
	recognise the needs of specific groups such as minority ethnic groups, the young, the elderly and the disabled?	?	✓	✓	Although not addressed directly by this policy, other policy requirements in the Plan mean that specific provision will be included in the overall housing provision for Gypsies and Travellers and for supported accommodation for those who cannot live in their own home.
5(c) Promote community cohesion	support development of voluntary sector?	0	0	0	No significant effect
	encourage development of community run business?	0	0	0	No significant effect
	encourage people's feelings of belonging, for example by providing community meeting places?	0	0	0	No significant effect
	recognise and value cultural and ethnic diversity?	0	0	0	No significant effect
5(d) Increase access to decent and affordable housing	help improve the quality of the housing stock and reduce the number of unfit homes?	0	0	0	No significant effect
	increase access to affordable housing, particularly for the young, the disabled and key workers?	✓	✓	✓	Significant housing growth should ease house price pressures. Other plan policy provisions include a requirement for 33% of all homes over the Plan period to be Affordable Housing.
5(e) Reduce crime rates and fear of crime	encourage crime reduction, particularly through the appropriate design of new development?	0	0	0	No significant effect
	help reduce the fear of crime?	0	0	0	No significant effect
<u>5(f) Improve conditions and services that engender good health and reduce health inequalities</u>	help promote healthy lifestyles?	0	0	0	No significant effect
	improve access to health services by means other than private cars?	0	0	0	No significant effect

	reduce ambient noise near residential and amenity areas?	X	X	X	Much of the development supported by the plan in support of the aims of this policy adjoins existing residential areas. There will be noise and amenity impacts on these areas
	reduce road accidents?	0	0	0	No significant effect
	reduce accidents and damage from fires?	0	0	0	No significant effect
5(g) Increase participation in education and life-long learning	improve access to skills learning by young people?	0	0	0	No significant effect
	improve access to skills learning by adults?	0	0	0	No significant effect
5(h) Maintain and improve culture, leisure and recreational activities that are available to all	increase access to culture, leisure and recreational activities?	0	0	0	No significant effect
RESOURCE USE AND WASTE					
<u>6(a) Use natural resources efficiently; reuse, use recycled where possible</u>	minimise the demand for raw materials?	X	X	X	The policy supports significant housing growth which will increase demand for raw materials
	encourage sustainable design, use of sustainable building materials and minimise wastage caused by construction methods?	0	0	0	No significant effect
	limit water consumption to levels supportable by natural process and storage systems?	X	X	X	The policy supports significant housing growth which will increase demand for water
	protect groundwater resources?	?	X	X	The policy supports significant housing growth which presents risk to groundwater
	promote sustainable drainage systems?	0	0	0	No significant effect
	reduce minerals extracted and imported?	X	X	X	The policy supports significant housing and employment growth which will increase demand for minerals
<u>6(b) Reduce waste</u>	reduce, reuse or recycle waste generated?	0	0	0	No significant effect
TOWN CENTRES					
7 Promote sustainable urban living	encourage wider range of shops and services in town centres?	?	?	?	This will depend on the extent to which linkages can be created and enhanced between new development and existing centres

	encourage more people to live in town centres?	0	0	0	No significant effect
	encourage mixed use developments in town centres?	0	0	0	No significant effect
	improve transport connections in, and to, town centres?	0	0	0	No significant effect
	encourage synergy in land uses, which supports the continued and enhanced viability of a wide range of shops and services?	0	0	0	No significant effect
	protect or improve the quality of the public realm in towns?	0	0	0	No significant effect

Conclusion

The policy provides clarity about the scale and location of housing which will be delivered in the District up to 2031. As well as securing long-term housing supply, the policy should help to support economic growth in the District through increasing local demand and spend and creating jobs in construction and other development-related industry.

The Strategic Housing Land Availability Assessment made it clear that housing targets cannot be achieved without the use of greenfield sites. Mitigation of the negative environmental effects of this is addressed in other policies in the plan.

Some short term effects (whether positive or negative) are uncertain, as they depend on the phasing of housing delivery on specific sites.

Policy IMR2: Local Plan early review

The Council will undertake a whole plan review of the Local Plan 2011-2031 by the end of 2023 at the latest. This will determine whether this Plan needs to be updated either in whole or in part. All policies will be reviewed but with particular regard paid to the following matters that were specifically identified during the preparation and examination of this plan:

- Housing requirements for the District and wider housing market areas;
- Housing delivery having regard to the progress and implementation of the Strategic Housing Sites and Local Housing Allocations identified in this plan and the rates of development being achieved measured against the stepped approach and housing trajectory set out in this plan;
- The safeguarded land to the West of Stevenage;
- The outcomes of the process(es) to comprehensively explore new settlement options in the District;
- Gypsy and Traveller provision
- The identification of needs for retail, leisure, office and other main town centre uses;
- Options for long-term secondary education provision in the Stevenage area; and
- Broad alignment with the statutory five-year time limit for reviews of the East Hertfordshire and Stevenage local plans (required by November 2023 and May 2024 respectively) to allow co-ordinated consideration of the above matters.

The review will have regard to up-to-date information and be conducted in line with Government policy and statutory requirements. Subject to the outcomes of that review, a new plan or policies will be prepared to a new time horizon of at least 2041.

The review will also serve to build upon existing strong, working relationships with adjoining and nearby authorities and may result in the preparation of a joint plan or policies based upon wider functional geographies.

SA implications of changes:

This is a new policy so needs to be appraised.

SA objective	SA Sub Objective: <i>will the policy or proposal help to...</i>	Predicted effect			Justification and recommendations for mitigation/ improvement
		Short term	Med term	Long term	
ECONOMIC ACTIVITY					
1 Achieve sustainable levels of prosperity and economic growth	maintain a diversified economy, with increased resilience to external shocks?	?	✓	✓	The review will ensure that the Local Plan's support for significant housing growth is appropriately provided for. This should continue to increase local demand and spend and create jobs in construction and other development-related industry. The review of needs for retail, leisure, office and other main town centre uses should also support economic growth.
	encourage new business to start-up and thrive in the District?	?	✓	✓	
	support and encourage the rural economy and diversification?	?	✓	✓	
	support and promote sustainable tourism in towns and rural	0	0	0	No significant effect

	areas?				
	improve the quality of local jobs available to people in the District?	0	0	0	No significant effect
	increase the skills base?	0	0	0	No significant effect
	make the cost of housing more affordable to those employed in the District?	?	✓	✓	Appropriate provision for housing growth should ease house price pressures
LAND USE AND DEVELOPMENT PATTERNS					
<u>2(a) Minimise the development of greenfield land and other land with high environmental and amenity value?</u>	promote the use of brownfield sites and if brownfield sites are not available, land of low environmental and amenity value?	0	0	0	No significant effect
	maximise reuse of vacant buildings and derelict land?	0	0	0	No significant effect
	minimise the loss of the best and most versatile agricultural land?	?	?	?	The review could alter the amount of greenfield land to be developed, including safeguarded land WS1, a large greenfield site
	reduce quantity of unremediated contaminated land?	0	0	0	No significant effect
<u>2(b) Provide access to green spaces</u>	<u>provide/improve access for all residents of the District to green spaces?</u>	?	?	?	The review could alter the amount of greenfield land to be developed.
	<u>provide opportunities for people to come into contact with and appreciate wildlife and wild places?</u>	?	?	?	The review could alter the amount of greenfield land to be developed, including safeguarded land WS1, which includes wildlife sites.
	<u>maintain/improve the public right of way network?</u>	0	0	0	No significant effect
<u>2 (c) Deliver more sustainable location patterns and reduce the use of motor vehicles</u>	<u>locate development so as to reduce the need to travel?</u>	0	0	0	No significant effect
	<u>reduce car reliance, encourage walking, cycle, bus, and train use?</u>	0	0	0	No significant effect
	<u>reduce road freight movements?</u>	0	0	0	No significant effect
	<u>avoid exacerbating local traffic congestion?</u>	0	0	0	No significant effect
	<u>provide affordable, accessible public transport in towns</u>	0	0	0	No significant effect

	<u>and in rural areas?</u>				
ENVIRONMENTAL PROTECTION					
<u>3(a) Protect and enhance biodiversity</u>	protect habitats and species, especially those designated as being of importance, and provide opportunities for creation of new habitats?	?	?	?	The review could alter the amount of greenfield land to be developed, which may have implications for biodiversity. In particular, possible development of WS1 could have implications on designated sites.
	support and maintain extent of wetland habitat and river habitats?	?	?	?	Changes to the development of greenfield sites may have an effect on this objective.
<u>3(b) Protect and enhance landscapes</u>	protect and enhance landscapes, especially those of historic, recreational or amenity value, and within the Chilterns AONB?	?	?	?	Changes to the development of greenfield sites may have an effect on this objective.
<u>3(c) Conserve and where appropriate, enhance the historic environment</u>	conserve and enhance the historic built character of the District's town's and villages?	?	?	?	Changes to the development of large sites may have an effect on this objective.
	protect sites of archaeological and historic importance, whether designated or not?	?	?	?	Changes to the development of large sites may have an effect on this objective.
<u>3(d) Reduce pollution from any source</u>	improve the water quality of rivers and groundwater supplies?	0	0	0	Changes to sites to be developed may vary the impact on these objectives, but the overall effect is not likely to be significant.
	achieve good air quality?	0	0	0	
	reduce ambient noise, especially from traffic?	0	0	0	
	reduce light pollution in the District?	0	0	0	
	protect soil quality?	0	0	0	
CLIMATE CHANGE					
<u>4(a) Reduce greenhouse gas emissions</u>	minimise energy consumption by transport and in buildings?	0	0	0	Changes to sites to be developed may vary the impact on this objective but the overall effect is not likely to be significant.
	increase proportion of energy generated by renewable sources?	0	0	0	Changes to sites to be developed may vary the impact on this objective but the overall effect is not likely to be significant.
	encourage use of local suppliers and the consumption of local produce?	0	0	0	No significant effect

4(b) Improve the District's ability to adapt to climate change	reduce vulnerability to climate change, exploit any benefits?	0	0	0	Changes to sites to be developed may vary the impact on this objective but the overall effect is not likely to be significant.
	avoid development in areas at risk from flooding?	0	0	0	Changes to sites to be developed may vary the impact on this objective but the overall effect is not likely to be significant.
A JUST SOCIETY					
5(a) Share benefits of prosperity fairly	reduce disparities in income levels?	0	0	0	No significant effect
	contribute to regeneration of deprived areas (estates in Letchworth and Hitchin)?	0	0	0	No significant effect
	provide employment and other opportunities for unemployed, especially long term unemployed and the disabled?	?	✓	✓	The policy aims to ensure that significant housing growth is appropriately provided for. This should increase local demand and spend and create jobs in construction and other development-related industry.
	encourage entrepreneurial activity in deprived areas?	0	0	0	No significant effect
5(b) Provide access to services and facilities for all	provide access to services and facilities without need to use a car?	0	0	0	No significant effect
	retain rural services, especially shops, post offices, schools, health centres and bus services?	0	0	0	Changes to sites to be developed may vary the impact on this objective but the overall effect is not likely to be significant.
	recognise the needs of specific groups such as minority ethnic groups, the young, the elderly and the disabled?	?	✓	✓	The policy should ensure that appropriate provision will be included in the overall housing provision for Gypsies and Travellers and for supported accommodation for those who cannot live in their own home.
5(c) Promote community cohesion	support development of voluntary sector?	0	0	0	No significant effect
	encourage development of community run business?	0	0	0	No significant effect
	encourage people's feelings of belonging, for example by providing community meeting places?	0	0	0	No significant effect
	recognise and value cultural and ethnic	0	0	0	No significant effect

	diversity?				
5(d) Increase access to decent and affordable housing	help improve the quality of the housing stock and reduce the number of unfit homes?	0	0	0	No significant effect
	increase access to affordable housing, particularly for the young, the disabled and key workers?	✓	✓	✓	Appropriate provision for significant housing growth should ease house price pressures.
5(e) Reduce crime rates and fear of crime	encourage crime reduction, particularly through the appropriate design of new development?	0	0	0	No significant effect
	help reduce the fear of crime?	0	0	0	No significant effect
<u>5(f) Improve conditions and services that engender good health and reduce health inequalities</u>	help promote healthy lifestyles?	0	0	0	No significant effect
	improve access to health services by means other than private cars?	0	0	0	No significant effect
	reduce ambient noise near residential and amenity areas?	0	0	0	Changes to sites to be developed may vary the impact on this objective but the overall effect is not likely to be significant.
	reduce road accidents?	0	0	0	No significant effect
	reduce accidents and damage from fires?	0	0	0	No significant effect
5(g) Increase participation in education and life-long learning	improve access to skills learning by young people?	?	?	✓	Should ensure appropriate long term provision of secondary education in the Stevenage area.
	improve access to skills learning by adults?	0	0	0	No significant effect
5(h) Maintain and improve culture, leisure and recreational activities that are available to all	increase access to culture, leisure and recreational activities?	0	0	0	No significant effect
RESOURCE USE AND WASTE					
<u>6(a) Use natural resources efficiently; reuse, use recycled where possible</u>	minimise the demand for raw materials?	0	0	0	Changes to sites to be developed may vary the impact on this objective but the overall effect is not likely to be significant.
	encourage sustainable design, use of sustainable building materials and minimise wastage caused by	0	0	0	No significant effect

	construction methods?				
	limit water consumption to levels supportable by natural process and storage systems?	0	0	0	Changes to sites to be developed may vary the impact on this objective but the overall effect is not likely to be significant.
	protect groundwater resources?	0	0	0	Changes to sites to be developed may vary the impact on this objective but the overall effect is not likely to be significant.
	promote sustainable drainage systems?	0	0	0	No significant effect
	reduce minerals extracted and imported?	0	0	0	Changes to sites to be developed may vary the impact on this objective but the overall effect is not likely to be significant.
6(b) Reduce waste	reduce, reuse or recycle waste generated?	0	0	0	No significant effect
TOWN CENTRES					
7 Promote sustainable urban living	encourage wider range of shops and services in town centres?	?	?	?	The review of needs for retail, leisure, office and other main town centre uses may support this objective.
	encourage more people to live in town centres?	0	0	0	No significant effect
	encourage mixed use developments in town centres?	0	0	0	No significant effect
	improve transport connections in, and to, town centres?	0	0	0	No significant effect
	encourage synergy in land uses, which supports the continued and enhanced viability of a wide range of shops and services?	0	0	0	No significant effect
	protect or improve the quality of the public realm in towns?	0	0	0	No significant effect
Conclusion					
The policy provides for a Local Plan review by the end of 2023, in recognition of many uncertainties, including possible changes to the planning system, and changes to the way we live, work or spend leisure time. It is noted that this may result in a comprehensive update of the Plan. The overall intention is to ensure the continued delivery of appropriate levels of housing, and retail, leisure, office and other town centres uses. Many of the effects are uncertain, since a review may result in different levels or location of development provision.
