Tips for a greener Christmas

Why not look out for local shops and markets selling fruit and vegetables without plastic packaging?

Some large shops are now removing glitter from their Christmas ranges to reduce micro plastics in our environment. Why not challenge yourself to avoid glittered items this Christmas?

Please do not include wrapping paper and Christmas cards in your recycling bin. These often are coated or have embellishments that cannot be recycled.

Did you know that you can home compost paper towels, egg shells, coffee grounds, vegetable peelings and even plain cardboard? Get composting this Christmas and make a nutrient-rich organic matter to feed your garden next year.

I'm made out of recyclable card! Please read for your reference and then put me in your recycling bin.

PLEASE NOTE: The collection dates on the reverse of this hanger are based on our current collection schedule, however we may need to change dates as a result of bad weather, or impacts of Covid-19. Any collection changes will be posted on our website.
